Breaking Barriers Stanley S. Litow, Tina Kelley, 2021 *Breaking Barriers* shows how to redesign high schools so that all students can move on to college and successful careers In a negation of the American Dream a child's zip code is currently a far better predictor of success than hard work intelligence or resilience This book tells the story of a school model that focuses on equity and works to prove that all young people can achieve academic excellence given the right support P TECH Pathways in Technology Early College High School combines public high schools and community colleges in partnership with employers providing both opportunity and support for all students This innovative and effective approach eliminates barriers to replication by engaging all stakeholders The first P TECH which opened in a low income Brooklyn neighborhood is now a model for school reform Praised by President Obama and heads of nations its story is told through the voices of students who have shattered the myths about which students can succeed *Breaking Barriers* is a compelling read It shows that a clear pathway from school to college to career goes beyond an aspiration it's achievable and for all students The global success of P Tech schools is something education government and business leaders need to learn about and get behind Arne Duncan former United States Secretary of Education *Breaking Barriers* is a must read The P Tech story shows that quality schools leading to not just a high school diploma but college completion and career success are critical to our future This is the kind of opportunity and support that must be provided to all students regardless of income or race Darren Walker president Ford Foundation

Spring Break: A True Story of Hope and Determination Steven Benvenisti, Steven Benvenisti Esq, 2014-10-11

Imagine the worst event that could ever happen to you something so horrific that death is a welcome alternative That's exactly what happened to Ben an all American college student athlete homecoming king president of the honors society fraternity brother all while having a great relationship with his girlfriend and family Life could not have been better Unfortunately it all came to a screeching halt during his college spring break in Daytona Beach when a drunk driver crashed into him while he was walking As an attorney Ben's case touched me like no other It was so gruesome so unthinkably devastating that to this day I still get chills just thinking about it Yet all who followed this case have agreed that this story has inspired and changed them forever And so I'd made a promise that if I won I would share the story of this powerful and inspiring case with the public in the hopes of ending drunk driving and D U I

Spring Break is a true story of inner strength and courage which also provides a secret so precious that it not only saves lives it guarantees success no matter what the challenge is

The Make-or-Break Year Emily Krone Phillips, 2019-01-08 A Washington Post Bestseller An entirely fresh approach to ending the high school dropout crisis is revealed in this groundbreaking chronicle of unprecedented transformation in a city notorious for its failing schools In eighth grade Eric thought he was going places But by his second semester of freshman year at Hancock High his D's in Environmental Science and French plus an F in Mr Castillo's Honors Algebra class might have suggested otherwise Research shows that students with more than one semester F during their

freshman year are very unlikely to graduate If Eric had attended Hancock or any number of Chicago's public high schools just a decade earlier chances are good he would have dropped out Instead Hancock's new way of responding to failing grades missed homework and other red flags made it possible for Eric to get back on track The Make or Break Year is the largely untold story of how a simple idea that reorganizing schools to get students through the treacherous transitions of freshman year greatly increases the odds of those students graduating changed the course of two Chicago high schools an entire school system and thousands of lives Marshaling groundbreaking research on the teenage brain peer relationships and academic performance journalist turned communications expert Emily Krone Phillips details the emergence of Freshman OnTrack a program cum movement that is translating knowledge into action and revolutionizing how teachers grade mete out discipline and provide social emotional and academic support to their students This vivid description of real change in a faulty system will captivate anyone who cares about improving our nation's schools it will inspire educators and families to reimagine their relationships with students like Eric and others whose stories affirm the pivotal nature of ninth grade for all young people In a moment of relentless focus on what doesn't work in education and the public sphere Phillips's dramatic account examines what does

Surveillance Education Nolan Higdon, Allison Butler, 2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K-12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education

An Incomplete Memoir Charles L. McGranaghan, 2018-07-13 This book is a history of the first half of the author's long life Its content and episodes are intended for family member and close friend readers It may be of some assistance to those writing their memoirs This final and more detailed edition supersedes two previous editions

The End of Public Schools David W. Hursh, 2015-10-16 The End of Public Schools analyzes the effect of

foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public Sick Schools David V. Anderson,2020-01-10 Who s afraid of for profit education Those who work in non profit or government owned and operated schools Many parents and other stakeholders have been made fearful by this education establishment What s more important to humans nutrition or education Nutrition is more important because it is the prerequisite for other human activities including education What organizations provide food and who pays for the food Food is provided by for profit farmers for profit processors for profit wholesalers and for profit retailers Most food is purchased with the consumers own money but a significant amount is purchased by low income individuals using food stamps Why can t education be provided similarly using education stamps We trust for profit enterprises to provide our food Why can t we trust for profit enterprises to provide K 12 education Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for profit K 12 education sector would please and amaze its customers *Breaking Biden* Alex Marlow,2023-10-03 Marlow reports the findings of an investigation into the individuals and entities behind the decisions that have empowered the global elite at the expense of the American public *Penn State Alumni Directory* ,2010 **Mass Shootings** Jaclyn Schildkraut,H. Jaymi Elsass,2016-02-22 This book provides readers and researchers with a critical examination of mass shootings as told by the media offering research based factual answers to oft asked questions and investigating common myths about these tragic events When a mass shooting happens the news media is flooded with headlines and breaking information about the shooters victims and acts themselves What is notably absent in the news reporting are any concrete details that serve to inform news consumers how prevalent these mass shootings really are or are not when considering crime statistics as a whole what legitimate causes for concern are and how likely an individual is to be involved in such an incident Instead these events often are used as catalysts for conversations about larger issues such as gun control and mental health care reform What critical points are we missing when the media focuses on only what people want to hear This book explores the media attention to mass shootings and helps readers understand the problem of mass shootings and public gun violence from its inception to its existence in contemporary society It discusses how the issue is defined its history and its prevalence in both the United States and other countries and provides an exploration of the responses to these events and strategies for the prevention of future violence The book focuses on the myths purported about these unfortunate events

their victims and their perpetrators through typical U S media coverage as well as evidence based facts to contradict such narratives The book s authors pay primary attention to contemporary shootings in the United States but also discuss early events dating back to the 1700s and those occurring internationally The accessible writing enables readers of varying grade levels including laypersons to gain a more in depth and accurate understanding of the context of mass shootings in the United States As a result readers will be better able to contribute to meaningful discussions related to mass shooting events and the resulting responses and policies
