Dyslexia Andrew W. Ellis, 2014-02-25 Research in cognitive psychology has contributed much to our understanding of reading and spelling Most of this work has concentrated on the processes used by literate adults to comprehend and produce written language but there is a growing interest in applying cognitive theories to the development of literacy and to the understanding of disorders of reading and writing Such disorders may be acquired as a consequence of a brain injury to a previously literate adult or may be developmental occurring in otherwise normal children This textbook attempts to present this work to a non specialist audience Though written primarily with students of psychology and education in mind it is accessible also to parents and teachers The broad organization of the first edition is retained The book opens with a consideration of the history and nature of writing then moves on to deal with the nature of skilled reading Other chapters deal with the different ways that brain injury in adulthood can disrupt the mature reading skill the acquired dyslexias spelling and writing processes both in skilled writers and in patients with acquired dysgraphia the way children develop the skills of reading and writing and developmental reading and writing problems **Home Education in Historical**

Perspective Christina De Bellaigue, 2018-02-02 This book is the first publication to devote serious attention to the history of

home education from the late eighteenth to the early twentieth century It brings together work by historians literary scholars and current practitioners who shed new light on the history of home schooling in the UK both as a practice and as a philosophy The six historical case studies point to the significance of domestic instruction in the past and uncover the ways in which changing family forms have affected understandings of the purpose form and content of education At the same time they uncover the ways in which families and individuals adapted to the expansion of formalised schooling The final article by philosopher and Elective Home Education practitioner and theorist Richard Davies uncovers the ways in which the historical analysis can illuminate our understanding of contemporary education As a whole the volume offers stimulating insights into the history of learning in the home and into the relationship between families and educational practice that raise new questions about the objectives form and content of education in the past and today This book was originally published as a special issue of the Oxford Review of Education
