Zimmermann, 2025-01-12 This fourth volume in the Comparative Succession Law series provides a historical and comparative
study of how and by whom the estates of deceased persons are administered drawing upon the legal traditions of Europe and
beyond When a person dies their assets or their value will transfer to those entitled to inherit them following the deceased's
will or in the absence of a will according to the rules of intestate succession Along the way the assets have to be identified
located collected in and safeguarded Debts owed by the deceased or arising from the death must likewise be identified and
then met if need be with the proceeds from a sale of estate assets The whole process by which this is done from the time of
the death until the time of final distribution of the assets to those entitled to receive them is the subject of Administration of
Estates The topic has sometimes been neglected even within national legal systems and systematic comparative analysis at
least in the English language is almost wholly lacking The volume thus seeks to fill an important gap in the field of
comparative succession law Focusing on the legal systems of Europe and on countries which have been influenced by the
European experience the volume examines the law in Austria England and Wales France Germany Hungary Italy the
Netherlands Norway Russia Scotland and Spain as well as presenting chapters on Australia and New Zealand Canada China
South Africa South America and the United States of America The historical background to the main legal traditions in
Europe is represented by chapters on Roman law the customary law of early modern Continental Europe and English law
