Cyber Weaponry Henry Prunckun, 2018-04-04 There is little doubt that cyber space has become the battle space for confrontations However to conduct cyber operations a new armory of weapons needs to be employed No matter how many or how sophisticated an aggressor's kinetic weapons are they are useless in cyber space This book looks at the milieu of the cyber weapons industry as well as the belligerents who use cyber weapons It discusses what distinguishes these hardware devices and software programs from computer science in general It does this by focusing on specific aspects of the topic contextual issues of why cyber space is the new battleground defensive cyber weapons offensive cyber weapons dual use weapons and the implications these weapons systems have for practice Contrary to popular opinion the use of cyber weapons is not limited to nation states though this is where the bulk of news reporting focuses The reality is that there isn't a sector of the political economy that is immune to cyber skirmishes So this book looks at cyber weapons not only by national security agencies and the military but also by law enforcement and the business sector the latter includes administrations termed non government organisations NGOs This book offers study material suitable for a wide ranging audience students professionals researchers policy officers and ICT specialists

needed to discredit and deconstruct the narratives on which hate speech is based Alternative narratives are also needed to reinforce positive values and perspectives which support human rights and democratic citizenship such as solidarity respect for diversity freedom and equality Young people need to occupy online public space with positive narratives based on hope and love This manual presents communicative and educational approaches and tools for youth and other human rights activists to develop their own counter and alternative narratives to hate speech It is designed for working with young people from the age of 13 and is based on the principles of human rights education and youth participation Anyone can take action against speech By providing insights into hate speech and human rights and a methodology for producing counter narratives We Can makes that action easier more effective and positive The Council of Europe launched the No Hate Speech Movement campaign to mobilise young people for human rights online and to combat hate speech Education plays a central role in the campaign This manual complements Bookmarks A manual for combating hate speech online through human rights education also published by the Council of Europe
