Aristotle Nicomachean Ethics 1 Chapter:

Hypocrisy Béla Szabados, Eldon Soifer, 2004-05-10 Shortlisted for 2004 Saskatchewan Book Award Best Scholarly Writing What is a hypocrite What role does hypocrisy play in our lives Why is it thought to be such an ugly vice Is it ever acceptable What do we lose in our indifference to it Hypocrisy Ethical Investigations seeks to illuminate the concept of hypocrisy by exploring its multiple roles in our moral and political lives and struggles The authors provide a critical examination of a wide range of perspectives on the nature varieties and significance of hypocrisy arguing that it is a key concept in the investigation of the field of morality in general including its moralizing excesses **Classical Horizons** George E. McCarthy, 2012-02-01 2003 CHOICE Outstanding Academic Title This work relocates the origins of nineteenth century social theory in classical Greece and focuses on three figures Karl Marx Max Weber and mile Durkheim all of whom wrote dissertations on the culture and structure of ancient society Greek philosophy art and politics inspired their ideas stirred their imaginations and defined their intellectual horizons McCarthy rediscovers the forgotten dreams and classical horizons of these European social theorists and uncovers the close connections between sociology and philosophy offering new insights into the methods theories and approaches of modern social science **What We Owe to Nonhuman Animals** Gary Steiner, 2023-09-27 This book strongly challenges the Western philosophical tradition s assertion that humans are superior to nonhuman animals It makes a case for the full and direct moral status of nonhuman animals The book provides the basis for a radical critique of the entire trajectory of animal studies over the past fifteen years The key idea explored is that of felt kinship a sense of shared fate with and obligations to all sentient life It will help to inspire some deep rethinking on the part of leading exponents of animal studies The book s strong outlook is expressed through an appeal for radical humility on the side of humans rather than a constant reference to the human animal divide Historical figures examined in depth include Aristotle Seneca and Kant contemporary figures examined include Christine Korsgaard and Martha Nussbaum This book presents an account according to which the tradition has not proceeded on the basis of impartial motivations at all but instead has made a set of pointedly self serving assumptions about the proper criteria for assessing moral worth Readers of this book will gain exposure to a wide variety of thinkers in the Western philosophical tradition historical as well as contemporary This book is suitable for professionals working in nonhuman animal studies students advanced undergraduates and practitioners working in the fields of philosophy environmental studies law literature anthropology and related fields Notes on the Nicomachean Ethics of Aristotle John Alexander Stewart, 1892 Civil Society and Fanaticism Dominique Colas, 1997 Includes bibliographical refeerences and index **Post-Punk Perception** Edmund Wong, 2013-07 Growing up in Singapore in the 80s has been challenging I didn t know much about life or economy I didn t know what I want to do apart from playing I know I had to study and get a job In school we had to write composition about our profession when we grow up I had never wanted to be a philosopher let alone writing about social philosophy It is just that growing up with a single

parent is tough It is tougher when she is uneducated and I had to learn most things by myself After my National Service I decided to further studies That was when I was exposed to philosophy and psychology in the UK After graduation in 1999 with a degree in Electronics I came back home to resume my National Service I disrupt it and had about 2 months left The life in UK exposed me to something that I did not notice when growing up in Singapore I find local social scene unsatisfactory They are Confucians Muslims Christians freethinkers and humanists Most time they are preoccupied with how to earn more money Religion does not give me the fulfillment that it promised In addition most were based on Singaporeans interpretation of the Bible and Buddhism s dharma Most times I feel that everything that Singaporeans do has got to do with wealth creation or at least with the expenditure of it It end up like what Pope Francis referred to as the cult of money Organised religion involves more fear mongering than cultivating an inner grace and peace Hence this book is about how I relate an ancient thinker s ethics Aristotle to the present day I find Aristotle s ethics to most suit my needs as a man and lover It does not pretend to be more than what it seek the golden mean It does require us to think and explore the values to find balance and achieve wisdom with intellectual and moral virtues I also find other philosophers French or not particularly insightful and thought provoking They offer me explanation and exploration on subjects like love sex and death Freudian psychoanalysis are also very penetrating in their findings and insights Moreover I needed some contemporary psychological theory not in depth psychoanalysis to back Aristotle s model of ethics intellectual and moral virtues Hence the psychological background of my book I got acquainted with these psychological theories when I was preparing myself to be a financial consultant I later found out more about them and they became useful in my work and life Hence I would like to share it with people in Asia so that they can ask the right kind of questions in life in order to learn more about themselves and the social milieu they are living in Because everyone of us are affected by the social sciences politics economics and sociology This book will I hope allow us to understand why we are irrational and how we can make rational changes through reasonings in their life and achieving eudaimonia My wish is simply to share what I enjoy doing apart from creating useful ideas to improve the world Through my book I hope to make others understand religion science and philosophy and how they play an increasingly integral part in the Asian century

Happiness as Actuality in Nicomachean Ethics Sorin Sabou,2018-10-08 This is a study about the meaning of happiness in Aristotle s Nicomachean Ethics EN It is argued that in EN means actuality and it has to be interpreted through the lenses of two metaphors used by Aristotle in EN 1 7 1098a21 and 10 6 1176a30 the perimeter of good and the imprint of happiness To explain the meaning of happiness Aristotle first has to delineate the perimeter of good of human beings and he does that with the help of two criteria the final end and the function of humanity These two criteria are metaphysical concepts which describe the good as the final metaphysical aim of every person and the best every person can be This metaphysical teleological aim is the actuality of the soul according with excellence This is the perimeter within which Aristotle enquires about the good of humans

Moral Creativity John Wall,2005-08-11 In Moral Creativity John Wall argues that moral life and thought are inherently and radically creative Human beings are called by their own primordially created depths to exceed historical evil and tragedy through the ongoing creative transformation of their world This thesis challenges ancient Greek and biblical separations of ethics and poetic image making as well as contemporary conceptions of moral life as grounded in abstract principles or preconstituted traditions Taking as his point of departure the poetics of the will of Paul Ricoeur and ranging widely into critical conversations with Continental narrative feminist and liberationist ethics Wall uncovers the profound senses in which moral practice and thought involve tension catharsis excess and renewal In the process he draws new connections between sin and tragedy practice and poetics and morality and myth Rather than proposing a complete ethics Moral Creativity is a meta ethical work investigating the creative capability as part of what it means morally to be human This capability is explored around four dimensions of ontology teleology deontology and social practice In each case Wall examines a traditional perspective on the relation of ethics to poetics critiques it using resources from contemporary phenomenology and develops a conception of a more original poetics of moral life In the end moral creativity is a human capability for inhabiting tensions among others and in social systems and in the image of a Creator creating together an ever more radically inclusive moral world

Machiavelli Redeemed Robert Kocis,1998 The true Machiavelli is not to be found in extremist interpretations The fault for these misperceptions is partly his own he spoke in provocative paradoxes to challenge sacred truths and this makes it easy for observers to ignore the obvious In this portrait

the obvious dominates our vision and he emerges as a Renaissance humanist Like all of us Machiavelli was a flawed being with strains of greatness mixed with baser ingredients But his political insights and recognition of the emergence of a new reality qualify him as a political genius Neither devil nor saint Machiavelli has languished too long in the Purgatory of the human imagination and deserves redemption BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Cambridge Companion to Utilitarianism** Ben Eggleston,Dale E.
