Arms Greenhill Manual Military Pistol Rifle Small:

Guns of the Elite Forces John Walter, 2005-02-01 *Guns of the Elite Forces* provides a penetrating account of the weapons that elite fighting troops carry into combat. Such elites have always existed in the armies of the world. During World War II, elite units sprang up in most theatres of conflict: the German Brandenburgers carried out clandestine operations in Poland; in the Western Desert, the Long Range Desert Group and SAS penetrated deep behind enemy lines for larger scale raids; the British Commandos and the US Rangers and Marine Raiders were formed. *A History of the Small Arms Made by the Sterling Armament Company* Peter Laidler, James Edmiston, David Howroyd, 2020-07-30 An in depth history of the small arms made by the Sterling Company of Dagenham, Essex, England, from 1940 until the company closed in 1989. The Lanchester and the Patchett Machine Carbines were both developed at Sterling Engineering Co Ltd during World War II. With the appearance of the earliest Patchett prototypes, the military began testing them in ever more rigorous trials, wherein the Patchett kept proving its merits. This led to limited UK adoption of the MkII Patchett as the L2A1 in 1953 and the first Sterling MkII as the L2A2 in 1955. Then came Sterling's Crown Jewel, the superb Mk4, adopted as the general issue UK Gun Sub Machine L2A3 in September 1955. Manufactured briefly but intensively by ROF Fazakerley 1955-1959 and by Sterling for over 30 years, nearly 4,000,000 were made. Unlike wraparound bolt designs like the UZI, the Sterling was capable of being truly silenced with standard 9mm ball ammunition, as opposed to being merely suppressed. The excellent silenced Sterling Patchett Mk5, adopted as the UK L34A1 in 1967, is the only Sterling remaining in British Service. All prototypes, military Marks, commercial and licensed production models of the Sterling are described, including the Canadian C1 SMG and the Indian 1A Carbine. Contains notes on manufacturing methods and procedures as used at Sterling, ROF Fazakerley, Canadian Arsenals Limited and the Indian Small Arms Factory, Kanpur, Cawnpore, plus extensive notes on inter-model interchangeability, serial number ranges, quantities produced, client country purchases of the various Sterling Marks and accessories. Praise for *A History of the Small Arms made by the Sterling Armament Company*. If you have an interest in small arms, then this is a book that belongs in your library or bookshelf. The book does a great job of providing the reader with the story of the weapons that evolved into the Sterling sub-machine gun and the changes in design that took place over that history. The result was a weapon that served in many fields of conflict and performed admirably. *Armorama* *Magill's Guide to Military History: Cor-Jan* John Powell, 2001 Salem Press's five-volume *Magill's Guide to Military History* presents a survey of the wars, battles, peoples, groups and civilizations that played an important role in worldwide military history from ancient times to the twenty-first century. In addition to comprehensive coverage of Western military history, the encyclopedia examines the major military events, personages and civilizations of the entire world from the beginning of military history. Includes Time Line of Wars and Battles, Wars and Battles by Geographical Area, Military Leaders by Geographic Area and List of Entries by Category. *Small Arms for Urban Combat* Russell C. Tilstra, 2014-01-10 The urbanization of warfare has

necessitated the kind of precision targeting that only small arms can deliver Weapons not often seen on the battlefield can prove useful even indispensable in an urban setting This expert reference guide examines in detail the most successful small arms in use and how changes in warfare have affected how those weapons are used and have transformed the small arms industry Professional soldiers law enforcement officers and students and researchers of small arms will gain a working knowledge of the most common and successful urban combat weapons including some currently in development
