

Army Values And Servant Leadership

My Army Career started as a junior in High School in 1983 till 1989, with the Field Artillery out of Glasgow Ky. In the '80s SHARP programs were not present and harassment on Military installations and off post were very high. At that time, it was "A man's Army" and many jokes about gays and women in the force were normal. I rejoined After 18 years break in service, with the same unit out of Glasgow Ky. My return in 2007 seen huge changes with a new program called SHARP. The Army was and is adapting to changing environments and what we considered "acceptable" in the past have transitioned out of the new Army. Sexual assault prevalence in the Army rose for women from 4.4 percent in 2016 to 5.8 percent in 2018 and reporting rates have quadrupled over the past decade, the Pentagon stated that the 2018 reporting rate was roughly on par with the 2016 rate. The Army will not tolerate Sexual Harassment and Assault, and the Army is and will be working hard on a culture of dignity and respect. Leaders should do what is right and teach and lead the younger Soldiers.

Sexual Harassment/Sexual Assault response program (SHARP) created and implemented in 2006 to end sexual harassment and sexual assault within all ranks. Department of Defense (DOD) as, intentional sexual contact characterized by using force, threats, intimidation, or abuse of authority or when the victim does not or cannot consent. DOD defines sexual harassment as a form of sex, discrimination that involves unwelcome sexual advances, requests for sexual favors, and other verbal and physical conduct of sexual nature. In the fiscal year 2018, 0.7 percent of Male Soldiers on active duty reported sexual assault compared to 6.2 percent of Female Soldiers. In 2016 only 1 out of 14 reported sexual assault while in 2018 the numbers were 1 out of 3 which shows more Soldiers are coming forward. Male Soldiers on active duty indicated 6.3 percent were Sexual Harassed with 24.2 percent of Female active-duty soldiers. Army values and Servant leadership and encouraging Soldiers to do what is right and protect and defend. The army culture has changed and will change and requires dignity and respect for all.

The culture of the Army has changed from the past, is changing with the present and will continue to change in the future, due to people of all levels of society joining the army. First let us start with the past. Soldiers were scared to make a report due to retaliation and not having a program in place at that time. I remember while being a young Soldier in the '80s, of harassment from my Sgt in the Commo section of 1/623 fa out of Glasgow, Ky. He would toss drinks on me, make me run behind a gamma goat (old military vehicle). Would curse me and make racial slurs of me being white. I never reported this Soldier, however leadership soon saw this and moved me to another section. I still think about this toxic leadership and what this indiviual inflicted on me and will never forget

Army Values Research Papers:

An Assessment of the Values of New Recruits Peter F. Ramsberger, 1999 The senior leadership of the Army realizes the important role values play in the Army Values allow the operating norms and rules of the Army to become meaningful stable positive and hence capable of being internalized In the past the Army has collected data on the values of active duty soldiers However there is only limited knowledge of the values new recruits bring to the Army or their relationship to the seven core values Loyalty Duty Respect Selfless Service Honor Integrity and Personal Courage emphasized by the Army leadership In this effort these core and other values were assessed among entering Active Army recruits so as to establish the basis for tracking soldier values from initial entry training through the first tour of duty Stinet *Research Report* ,1973

Defense Logistics Studies Information Exchange,1971 *War and the Politics of Ethics* Maja Zehfuss,2018 Contemporary Western war is represented as enacting the West s ability and responsibility to help make the world a better place for others in particular to protect them from oppression and serious human rights abuses That is war has become permissible again indeed even required as ethical war At the same time however Western war kills and destroys This creates a paradox Western war risks killing those it proposes to protect This book examines how we have responded to this dilemma and challenges the vision of ethical war itself exploring how the commitment to ethics shapes the practice of war and indeed how practices come in turn to shape what is considered ethical in war The book closely examines particular practices of warfare such as targeting the use of cultural knowledge and ethics training for soldiers What emerges is that instead of constraining violence the commitment to ethics enables and enhances it The book argues that the production of ethical war relies on an impossible but obscured separation between ethics and politics that is the problematic politics of ethics and reflects on the need to make decisions at the limit of ethics
