Army Community Leaders Information Forum:

Program Evaluation for U.S. Army Lifelong Learning Centers (LLCs) Anna T. Cianciolo, 2008 Lifelong Learning Centers LLCs comprise a suite of technologies that enable online posting of schoolhouse curricula and collaboration among distributed learners These technologies connect the field Army to Army schoolhouses simultaneously improving course currency and supporting training in the field The impact of lifelong learning on organizational excellence seems clear However it is unknown how LLCs promote readiness using educational technology and how LLC effectiveness should be measured The purpose of this research was to develop a comprehensive generalizable framework for conceptualizing the effectiveness of LLCs and for capturing the drivers of success The framework and associated metrics were used to conduct an evaluation of a pilot LLC located at Fort Leavenworth This evaluation indicated the importance of taking a causal approach An assessment of outcomes alone would have indicated that the initiative had achieved its goals but would have obscured the fact that some of these goals teaching and learning effectiveness were achieved largely independently of the use of learning technologies The basis of the framework in theory makes it generalizable not only across current and future LLCs but also across other blended learning initiatives addressing a gap in the scholarly literature regarding the effectiveness assessment of educational technology
