Fernández, Jorge De Torres, Andreu Martínez d'Alòs-Moner, Carlos Cañete, 2017-07-31 One of the earliest and most ambitious projects carried out by the Society of Jesus was the mission to the Christian kingdom of Ethiopia which ran from 1557 to 1632 In about 1621 crucial figures in the Ethiopian Solomonid monarchy including King Susenyos were converted to Catholicism and up to 1632 imposing missionary churches residences and royal structures were built This book studies for the first time in a comprehensive manner the missionary architecture built by the joint work of Jesuit padres Ethiopian and Indian masons and royal Ethiopian patrons The work gives ample archaeological architectonic and historical descriptions of the ten extant sites known to date and includes hypotheses on hitherto unexplored or lesser known structures **The Guaraní and Their Missions** Julia J. Sarreal, 2014-06-11 The thirty Guaran missions of the R o de la Plata were the largest and most prosperous of all the Catholic missions established throughout the frontier regions of the Americas to convert acculturate and incorporate indigenous peoples and their lands into the Spanish and Portuguese empires But between 1768 and 1800 the mission population fell by almost half and the economy became insolvent This unique socioeconomic history provides a coherent and comprehensive explanation for the missions operation and decline providing readers with an understanding of the material changes experienced by the Guaran in their day to day lives Although the mission economy funded operations sustained the population and influenced daily routines scholars have not focused on this important aspect of Guaran history primarily producing studies of religious and cultural change This book employs mission account books letters and other archival materials to trace the Guaran mission work regime and to examine how the Guaran shaped the mission economy These materials enable the author to poke holes in longheld beliefs about Jesuit mission management and offer original arguments regarding the Bourbon reforms that ultimately made the missions unsustainable Data and Computer Communications William Stallings, 2007 Data and Computer Communications Eighth Edition offers a clear comprehensive and unified view of the entire fields of data communications networking and protocols William Stallings organizes this massive subject into small comprehensible elements building a complete survey of the state of the art one piece at a time Stallings has substantially revised this international best seller to reflect today s latest innovations from WiFi and 10 Gbps Ethernet to advanced congestion control and IP performance metrics **BOOK JACKET** *A Visual Catalog of Jesuit Missions in Spanish America* Robert H.
