Introduction (5 minutes)

- Give each student 25 counters.
- Ask your students to make eight groups with three counters in each group.
- Direct your students to count by threes.
- Ask them to identify how many counters there are altogether.
- Write an equation to show this. For example: $3 + 3 + 3 + 3 + 3 + 3 + 3 + 3$.
- Tell students that today they are going to describe an **array**, or an ordered display, using number sentences.

EL

Beginning

- Provide students with eight cups and have them place three counters in each cup.
- Provide students with the skip counting sequence of 3, 6, 9, 12, 15, 18, 21, 24.
- Provide the definition of a ray in English and student's home language (L1).

Intermediate

- Ask students to explain the definition of a ray to a partner, using their own words.

Epistemic Fluency and Professional Education Lina Markauskaite,Peter Goodyear,2016-09-21 This book by combining sociocultural material cognitive and embodied perspectives on human knowing offers a new and powerful conceptualisation of epistemic fluency a capacity that underpins knowledgeable professional action and innovation Using results from empirical studies of professional education

programs the book sheds light on practical ways in which the development of epistemic fluency can be recognised and supported in higher education and in the transition to work The book provides a broader and deeper conception of epistemic fluency than previously available in the literature Epistemic fluency involves a set of capabilities that allow people to recognize and participate in different ways of knowing Such people are adept at combining different kinds of specialised and context dependent knowledge and at reconfiguring their work environment to see problems and solutions anew In practical terms the book addresses the following kinds of questions What does it take to be a productive member of a multidisciplinary team working on a complex problem What enables a person to integrate different types and fields of knowledge indeed different ways of knowing in order to make some well founded decisions and take actions in the world What personal knowledge resources are entailed in analysing a problem and describing an innovative solution such that the innovation can be shared in an organization or professional community How do people get better at these things and how can teachers in higher education help students develop these valued capacities The answers to these questions are central to a thorough understanding of what it means to become an effective knowledge worker and resourceful professional

Improve Every Lesson Plan with SEL Jeffrey Benson, 2021-04-21 Good lesson plans have an almost mysterious power they declare that all information can be interesting that every skill acquired broadens our potentials to make a better world and that all impassioned activity leads to learning Our best teachers have shown us over and over that life is not a struggle against boredom and compliance it is a wonder to be apprehended Every bit of SEL you can integrate into your planning will not only begin to heal the wounds of passivity racism and inequity but also give students an experience today in your classroom of that better world Jeffrey Benson draws from his 40 plus years of experience as a teacher and an administrator to provide explicit step by step guidance on how to incorporate social and emotional learning SEL into K 12 lesson planning without imposing a separate SEL curriculum The book identifies SEL skills in three broad categories skills for self interpersonal skills and skills as a community member It offers research based strategies for seamlessly integrating these skills into every section of lesson plans from introducing a topic in a way that sparks students interest to accessing prior knowledge providing direct instruction allowing time for experimentation and discovery using formative assessment and closing a lesson in a purposeful rather than haphazard manner In addition to practical advice on lesson planning that can lead to improved student motivation and achievement Benson offers inspiration urging both new and veteran teachers to seize every opportunity to develop caring joyful communities of learners whose experiences and skills can contribute to a better more equitable world both inside and outside the classroom
