Don Marquis once made the statement, "The loss of ones life is one of the greatest losses one can suffer. The loss of ones life deprives one of all the experiences and enjoyments that would otherwise have constituted ones future". In todays society one of the ongoing questions is when is it right to take the life of another being, more specifically an unborn child. Abortion is mentally and physically damaging for a woman and her fetus. It should not be legal for distinct reasons. These distinct reasons are there are many risks associated with abortion, there are other options rather than getting an abortion and abortion is murder. [Argumentative essay examples](#) on different opinions can be found by link. There are alternative choices instead of getting an abortion. The first and most effective option is not to have sex. The second option is to have the baby and let others care for it. There are companies designed to help find homes for children without proper parents. The third option is to have the baby and put him or her up for adoption. This can provide a solution to couples facing infertility. Abortion is unnecessary due to these alternatives and others. Second, mental and physical health risks are associated with abortions. A patient may experience hemorrhaging, infection, or death. The most common risk of getting an abortion is breast cancer. During a woman's first pregnancy, the breast structure is permanently changed. It seems apparent that cancerous changes occur more frequently among these transitional cells of a woman who has terminated her pregnancy. If she aborts more than once before completing a pregnancy, her chance for cancer increases even more. There are 1.6 million abortions each year; 56% are first abortions and 44% are second or more (Stotland 56). With these figures, one in ten women may develop breast cancer, and 25% of them may die (Stotland 63). However, there are not only physical risks to abortion, but mental risks also. Some women feel relief after an abortion, but many suffer Post Abortion Stress. The symptoms of Post Abortion Stress include anger, guilt, flashbacks, sexual dysfunction, suicidal ideas, hallucination, and increased drug or alcohol use. These facts alone are evidence that abortions are too dangerous for a woman and her child. Third, abortion is murder because the fetus is a well-developed organism before the abortion takes place. Within the first three weeks, the heart is pumping blood, arms and legs bud, and brain is present. Within a month, the mouth, ears, and nose are present. Brainwaves can be recorded and heartbeat detected at forty days and the skeleton is formed. During this period, the brain is controlling the movement of muscles and organs and the unborn reflexively responds to stimuli. This all takes place before the earliest surgical abortions are performed. Many also believe that because the fetus is not living, it does not experience pain. The baby's spinal reflexes are sufficiently developed to feel pain around week seven. Mother Theresa said, "The greatest destroyer of peace is abortion because if a mother can kill her own...

Levi,2013-03-09 My impulse when I decided to collect into a single volume the essays on topics in logical theory and related subjects that I have written in the last fifteen years was to borrow from the title of a work by Sextus Empiricus and call my collection Against the Logicians Although the essays address a variety of problems that interest me the thread that runs through them is a scepticism about how logicians see things So the title appealed to me However I had second thoughts and chose instead a title of one of my own essays In Defense of Informal Logic which emphasizes my support for other approaches Although my criticisms of logical theory are designed to cut deeply I do not want to be unresponsive to the needs that it is supposed to satisfy However my position that we have adequate resources for critically analyzing a particular argument and do not need a theory of argumentation will not completely satisfy those who think that there is a need for it So I want them to know that I am taking their concerns seriously **Arguing about Abortion** Lewis M.
