Imprudent King Geoffrey Parker, 2014-11-11 Philip II is not only the most famous king in Spanish history but one of the most famous monarchs in English history the man who married Mary Tudor and later launched the Spanish Armada against her sister Elizabeth I This compelling biography of the most powerful European monarch of his day begins with his conception 1526 and ends with his ascent to Paradise 1603 two occurrences surprisingly well documented by contemporaries Eminent historian Geoffrey Parker draws on four decades of research on Philip as well as a recent extraordinary archival discovery a trove of 3 000 documents in the vaults of the Hispanic Society of America in New York City unread since crossing Philip's own desk more than four centuries ago Many of them change significantly what we know about the king The book examines Philip's long apprenticeship his three principal interests work play and religion and the major political military and personal challenges he faced during his long reign Parker offers fresh insights into the causes of Philip's leadership failures was his empire simply too big to manage or would a monarch with different talents and temperament have fared better

Networked Regionalism as Conflict Management Anna Ohanyan, 2015-04-15 Most regions of the world are plagued by conflicts that are made insoluble by a confluence of

complex threads from history geography politics and culture These frozen conflicts defy conflict management interventions by both internal and external agents and institutions Worse they constantly threaten to extend beyond their local geographies as in the terrorist bombings in Boston by ethnic Chechens or to escalate from skirmishes to full scale war as in Nagorno Karabakh Consequently such conflicts cry out for alternative approaches to the classic state focused and sovereignty based conflict management models that are practiced in traditional diplomacy which most often produce rather short term ad hoc fragmented interventions and outcomes Drawing upon the cases of the South Caucasus the Western Balkans Central America South East Asia and Northern Ireland Networked Regionalism as Conflict Management offers a theoretical and practical solution to this impasse by arguing for regional collective interventions that involve a long term reengineering of existing conflict management infrastructure on the ground Such approaches have been attracting the attention of scholars and practitioners alike yet thus far these concepts have rarely involved more than simple prescriptions for regional cooperation between grassroots actors and traditional diplomacy Specifically says Anna Ohanyan only the cultivation and establishment of regional peace systems can provide an effective path toward conflict management in these standoffs in such intractably divided regions

Talaat Pasha Hans-Lukas Kieser,2018-06-26 The first English language biography of the de facto ruler of the late Ottoman Empire and architect of the Armenian Genocide Talaat Pasha 1874 1921 led the triumvirate that ruled the late Ottoman Empire during World War I and is arguably the father of modern Turkey He was also the architect of the Armenian Genocide which would result in the systematic extermination of more than a million people and which set the stage for a century that would witness atrocities on a scale never imagined Here is the first biography in English of the revolutionary figure who not only prepared the way for Atatürk and the founding of the republic in 1923 but who shaped the modern world as well In this explosive book Hans Lukas Kieser provides a mesmerizing portrait of a man who maintained power through a potent blend of the new Turkish ethno nationalism the political Islam of former Sultan Abdulhamid II and a readiness to employ radical solutions and violence From Talaat's role in the Young Turk Revolution of 1908 to his exile from Turkey and assassination a sensation in Weimar Germany Kieser restores the Ottoman drama to the heart of world events He shows how Talaat wielded far more power than previously realized making him the de facto ruler of the empire He brings wartime Istanbul vividly to life as a thriving diplomatic hub and reveals how Talaat's cataclysmic actions would reverberate across the twentieth century In this major work of scholarship Kieser tells the story of the brilliant and merciless politician who stood at the twilight of empire and the dawn of the age of genocide
