from Strategy David Richards, Julian Lindley-French, 2024-09-12 Britain is sleepwalking to disaster because London has abandoned all forms of proper strategy That is the sobering message of this powerful analysis exposing the great failings of British security and defence policy Britain long ago abandoned the art and science of grand strategy even though this is crucial for establishing the country's direction of travel Without grand strategy national strategy has been reduced to little more than a political game of how much threat Britain can afford and who gets what from an ever shrinking resource pot However it is Britain's defence policy where the contradictions and self delusion of abandoned strategy are most apparent and which explains why the balance between ends ways and means as sound strategy would demand has become not just elusive but nigh on impossible This essential incisive book offers Britain a pathway back to strategic realism by ending the profound confusion of interests with values that has done so much damage to Britain and its vital place in the world of the twenty first century

Evolution of the Armed Forces of the United Arab Emirates Athol Yates, 2020-12-10 While today the military of the United Arab Emirates is described admiringly as a little Sparta just 60 years ago the only security forces in the Emirates were the armed retainers of the Ruling Sheikhs and a small British led locally raised Arab force Through a combination of direct oversight by rulers investment in its nationals engagement of expatriates and the purchase of cutting edge military hardware the UAE Armed Forces has become arguably the most capable Arab military In the last decade it has also gained considerable experience through its military operations in Afghanistan Libya Iraq Syria and Yemen This book traces the little known history of the country's military from 1951 to 2020 It provides unparalleled detail on the constituent forces that evolved into the UAE Armed Forces in 1976 and how that unified force has evolved to the present It provides essential background information on how the country's geography demographics and political system have shaped its military the enduring roles of the military and the history of each military service It also details the political and command structure governing the military and its manpower and materiel characteristics The book concludes with an explanation of how the UAE has been able to develop such a highly capable military for its size in a relatively short period of time

OECD Economic Surveys: Chile 2022 OECD, 2022-09-23 Chile's economy recovered swiftly from the pandemic on the back of exceptionally strong policy support which eventually led to a significant overheating of the economy Inflation has risen amid buoyant private consumption further aggravated by the Russian aggression on Ukraine

HC 527 - The Armed Forces Covenant in Action Part 5: Military Casualties Great Britain. Parliament. House of Commons. Defence Committee, 2014 Although Armed Forces personnel have a lower rate of criminal offending than the general population the rate for violent incidents is substantially higher particularly amongst those who have previously been deployed in combat roles and those who misuse alcohol The MoD needs to understand better the links between deployment alcohol misuse and violent behaviour especially domestic violence In particular there has been no research as to the incidence of domestic violence amongst Armed Forces personnel The Committee also found a shocking backlog in the processing of claims for War Pensions and for

the Armed Forces Compensation Scheme The Committee is concerned that the demand for support from the Defence Recovery Capability already exceeds supply Veterans need more support navigating the overlapping bureaucracy of the health system Despite assurances from the MoD and the Department of Health the Committee is concerned that as operations in Afghanistan and Iraq fade from the public s mind and personnel move on to other lives the necessary long term support for those injured physically and psychologically will not be maintained The MoD in conjunction with the Health Service has introduced some measures to support veterans with mental health problems and amputees but other conditions also require this focus The MoD should monitor the results of its work and report the outcomes in its annual report on the Armed Forces Covenant
