

CODE OF CONDUCT

I

I am an American, fighting in the forces which guard my country and our way of life. I am prepared to give my life in their defense.

II

I will never surrender of my own free will. If in command I will never surrender the members of my command while they still have the means to resist.

III

If I am captured I will continue to resist by all means available. I will make every effort to escape and aid others to escape. I will accept neither parole nor special favors from the enemy.

IV

If I become a prisoner of war, I will keep faith with my fellow prisoners. I will give no information or take part in any action which might be harmful to my comrades. If I am senior, I will take command. If not, I will obey the lawful orders of those appointed over me and will back them up in every way.

V

When questioned, should I become a prisoner of war, I am required to give name, rank, service number, and date of birth. I will evade answering further questions to the utmost of my ability. I will make no oral or written statements disloyal to my country and its allies or harmful to their cause.

VI

I will never forget that I am an American, fighting for freedom, responsible for my actions, and dedicated to the principles which made my country free. I will trust in my God and in the United States of America.

Army Code Of Conduct Manual:

Routledge Handbook of Military Ethics George Lucas, 2015-05-22 The Routledge Handbook of Military Ethics is a comprehensive reference work that addresses concerns held in common by the military services of many nations. It attempts to discern both moral dilemmas and clusters of moral principles held in common by all practitioners of this profession regardless of nation or culture. Comprising essays by contributors drawn from the four service branches Army Navy Air Force and Marine corps as well as civilian academics specializing in this field, this handbook discusses the relationship of ethics in the military setting to applied and professional ethics generally. Leading scholars and senior military practitioners from countries including the US UK France China Australia and Japan discuss various national cultural views of the moral dimensions of military service. With reference to the responsibilities of professional orientation and education as well as the challenges posed by recent technological developments, this handbook examines the difficulties underpinning the fundamental framework of military service. This book will be of much interest to students of military studies, war theory, ethics, philosophy, sociology, war and conflict studies, and security studies.

The Law of Non-International Armed Conflict
Sandesh Sivakumaran, 2012-08-09 Non-international armed conflicts now far outnumber international ones, but the protection afforded by international law to combatants and civilians is not always clear. This book will set out the legal rules and state practice applicable to internal armed conflicts, drawing on armed conflicts from the US civil war to the present day.

Military Ethics Th.A. van Baarda, D.E.M. Verweij, 2006-10-31 This collection is a unique joint venture of teachers and practitioners of military ethics. Representatives of each branch of the Armed Forces – i.e. the Navy, the Army, the Air Force and the Military Police – discuss their branch-specific experiences with moral questions and dilemmas. The moral questions and dilemmas which arise in their work are also discussed by certain professional groups within the Armed Forces, such as the Military Medical Service and the Military Psychological Service. Detailed attention is given to how junior commanders can enhance morally responsible behaviour within their unit. A substantial part of the book focuses on teaching military ethics. It includes the Socratic dialogue, decision-making skills, and a chapter containing fictitious moral dilemmas that can be used as exercises. The book is aimed at those responsible for training at military training centres as well as at cadets, midshipmen, and young officers. It will also be an important tool for commanders preparing for a mission. And it will be of use for all those concerned with the subject of military ethics at policy and management level, both in the armed forces and outside it.
