Future Combat Systems Program and Alternatives ,2006 In today s environment of rapidly evolving conflicts the Army s goal
is to have units that have the combat power of heavy units but that can be transported anywhere in the world in a matter of
days To address concerns about the armored vehicle fleet s aging and the difficulties involved in transporting it as well as to
equip the Army more suitably to conduct operations overseas on short notice using forces based in the United States the
service created the Future Combat Systems FCS program in 2000 A major modernization effort the program is designed in
part to develop and purchase vehicles to replace those now in the heavy forces the new vehicles would be much lighter
thereby easing the deployment of units equipped with them In the analysis presented in this report the Congressional Budget
Office CBO examined the current status of the Army s fleet of armored vehicles and assessed the speed of deployment of the
service s heavy forces It also evaluated the FCS program considering the program s costs as well as its advantages and
disadvantages and comparing it with several alternative plans for modernizing the Army s heavy forces
