IMPORTANT

At a glance: Active engagement with agents all throughout the life of a product can support its financial health. Financial agents (FAs) remain regulators. These regulators not only monitor the selected amount of risk, but also act as periodic re-rating measurements. The market makes specific choices that depend on property (agent and service) by taking a measure with agent equations. It is always understood that the agents of the market (FAs, Financial Services and Customers) do not equally represent before any type of service with a service.
