Algebra 1 Benchmark 4th Quarter:

On the Extrapolation with the Denton Proportional Benchmarking Method Mr. Tommaso Di Fonzo, Mr. Marco Marini, 2012-06-01 Statistical offices have often recourse to benchmarking methods for compiling quarterly national accounts. QNA Benchmarking methods employ quarterly indicator series i to distribute annual more reliable series of national accounts and ii to extrapolate the most recent quarters not yet covered by annual benchmarks. The Proportional First Differences PFD benchmarking method proposed by Denton 1971 is a widely used solution for distribution but in extrapolation it may suffer when the movements in the indicator series do not match consistently the movements in the target annual benchmarks. For this reason an enhanced formula for extrapolation was recommended by the IMF's Quarterly National Accounts Manual Concepts Data Sources and Compilation 2001. We discuss the rationale behind this technique and propose a matrix formulation of it. In addition we present applications of the enhanced formula to artificial and real life benchmarking examples showing how the extrapolations for the most recent quarters can be improved.

Technology's Edge Lisa Barrow, Lisa Markman, Cecilia Elena Rouse, 2008 We present results from a randomized study of a well defined use of computers in schools: a popular instructional computer program for pre algebra and algebra. We assess the program using a test designed to target pre algebra and algebra skills. Students randomly assigned to computer aided instruction score 0.17 of a standard deviation higher on pre algebra algebra tests than students randomly assigned to traditional instruction. We hypothesize that the effectiveness arises from increased individualized instruction as the effects appear larger for students in larger classes and in classes with high student absentee rates.

RADICALIZED SCHOOLS: Dr. Armand A. Fusco, 2025-01-10 How to Combat the Racial Radicalization of Education Vol I This two volume guidebook is essentially an encyclopedia illustrating the problems revolving around the racial agenda that is indoctrinating K-12 students who are being radicalized by promoting Critical Race Theory (CRT) with all of its various clones using different terms and phrases. The issue with parents who are revolting against is how it is being done: indoctrination and not choice and not age appropriate in the lower grades. The reason for two volumes is because most books relating to this issue go into the topic without giving the necessary background stagecraft to really know what is involved. Too often authors assume the reader is familiar with the background information and that is a dangerous assumption to make. Vol I provides the definitions of so many words and phrases because Critical Race Theory is a concept driven by twisted and confusing language much of it with new words such as intersectionality making it sound mysterious and even important. Yet it is a simple problem to resolve with choice and options but the racial advocates primarily white.

suburban educators do not want it resolved believing that every single student K 12 must be radicalized and racialized by the racial agenda without providing any evidence of the need for its infusion in K 12 schooling The districts promoting it are even denying that CRT is being promoted Therefore it s the words being used that are the clue whether or not CRT it is being taught For example the Superintendent of Schools of the trophy school did an unpresented action by purchasing a copy of How to be an AntiRacist for every teacher to use no further evidence is needed Anyone can be radicalized it occurs when someone starts to believe or support extreme views and then in some cases they become willing or unwilling radicalized activists Even the Connecticut solution a deep blue state arrived at a very amicable solution It recognized that it should not be done through indoctrination but with choice and only at the high school level In addition it s a political issue with Progressive Democrats and the Biden White House advocating for its use in schools and Republicans opposed to it For example the term slavery is interpreted to mean black slavery only when in fact white slavery started sooner it was harsher because they were used in the dangerous mining and timber work and it was cheaper to buy a white slave rather than a black slave Vol II Volume I set the center stage for the radicalization drama to take place for Vol II to provide the nitty gritty of the racial agenda that creates conflict chaos anger and makes schools unsafe for staff and students This is reason enough why it does not belong in schools What s critical to understand is that this extreme indoctrination has absolutely nothing to do with improving academic skills and knowledge and furthermore it violates U S Supreme Court decision 1968 Epperson vs Arkansas that prohibits the teaching of only one dogma What s even more interesting is that the districts promoting the racial dogma deny that they are doing so In psychology denialism is a person s choice to deny reality as a way to avoid a psychologically uncomfortable truth moreover for others when it involves the racial agenda The options available to combat the radicalization are then provided To make matters far worse is that the time and attention being given to this agenda has the so called safe school plans collecting dust causing the publication of Does Your Child Attend a Safe School No A Manual for Parents and Policymakers that provides 53 reasons why schools doing the racial agenda are not safe Additionally reading and math scores have been in a steady decline with 30 35 million students scoring below proficiency can it be any worse
