An Alternative Labour History Assistant Professor Dario Azzellini,2015-03-12

The global financial crisis has led to a new shop floor militancy Radical forms of protest and new workers takeovers have sprung up all over the globe In the US Republic Windows and Doors started production under worker control in January 2013 Later that year workers in Greece took over and managed a hotel a hospital a newspaper a TV channel and a factory The dominant revolutionary left has viewed workers control as part of a system necessary during a transition to socialism Yet most socialist and communist parties have neglected to promote workers control as it challenges the centrality of parties and it is in this spirit that trade unions operating through the institutional frameworks of government have held a monopoly over labor history Tracing Marx s writings on the Paris Commune through council communism anarcho syndicalism Italian operaismo and other heretical left currents *An Alternative Labour History* uncovers the practices and intentions of historical and contemporary autonomous workers movements that until now have been largely obscured It shows that by bringing permanence and predictability to their workplaces workers can stabilize their communities through expressions of participatory democracy And as history has repeatedly shown workers have always had the capacity to run their enterprises on their own

Going East: Discovering New and Alternative Traditions in Translation Studies Larisa Schippel,Cornelia Zwischenberger,2016-12-23 This volume provides a comprehensive overview of various Eastern European traditions of thought on the subject of translation as

well as the discipline of Translation Studies It sheds a light on how these traditions developed how they are related to and how they differ from Western traditions The volume shows nationally framed histories of translation and Translation Studies and presents Eastern European pioneers and trailblazing thinkers in the discipline This collection of articles however also shows that it is at times hard or even impossible to draw the line between theoretical and or scientific thinking and pre theoretical and or pre scientific thinking on translation Furthermore it shows that our discipline s beginnings which are supposedly rooted in Western scholarship may have to be rethought and consequently rewritten

Alternative Education Yoshiyuki Nagata, 2007-03-30 Alternative streams of education have been and remain an important but difficult theme for teachers parents policy makers and scholars By focusing on case studies of six countries Bolivia Thailand Australia USA The Netherlands and Denmark and by comprehensively analysing these by means of international comparative methodologies the author approaches the nuts and bolts issues of alternative and mainstream education systems The case studies include Charter Schools in the USA and

Waldorf Schools in Australia The study presents not only an insightful analysis of alternative forms of education with regard to actual issues in societies and also legal and administrative features of education It provides insights into the kind of school development that could be appropriate in the 21st century and the types of educational communities we should seek to create in the age of globalisation Alternative Iran Pamela Karimi, 2022-09-27 Alternative Iran offers a unique contribution to the field of contemporary art investigating how Iranian artists engage with space and site amid the pressures of the art market and the state's regulatory regimes Since the 1980s political economic and intellectual forces have driven Iran's creative class toward increasingly original forms of artmaking not meant for official venues Instead these art forms appear in private homes with trusted audiences derelict buildings leftover urban zones and remote natural sites While many of these venues operate independently others are fully sanctioned by the state Drawing on interviews with over a hundred artists gallerists theater experts musicians and designers Pamela Karimi throws into sharp relief the extraordinary art and performance activities that have received little attention outside Iran Attending to nonconforming curatorial projects independent guerrilla installations escapist practices and tacitly subversive performances Karimi discloses the push and pull between the art community and the authorities and discusses myriad instances of tentative coalition as opposed to outright partnership or uncompromising resistance Illustrated with more than 120 full color images this book provides entry into unique artistic experiences without catering to voyeuristic curiosity around Iran's often perceived underground culture
