Physiology for Healthcare Students David Sturgeon, 2018-03-09 This book provides a highly accessible introduction to anatomy and physiology. Written for students studying the subject for the first time, it covers the human body from the atomic and cellular levels through to all the major systems and includes chapters on blood, immunity and homeostasis. Logically presented, the chapters build on each other and are designed to develop the reader's knowledge and understanding of the human body. By the end of each chapter, the reader will understand and be able to explain how the structures and systems described are organised and contribute to the maintenance of health. Describing how illness and disease undermine the body's ability to maintain homeostasis, this text helps readers to predict and account for the consequences when this occurs. Complete with self-test questions, full-colour illustrations and a comprehensive glossary, this book is an essential read for all nursing and healthcare students in both further and higher education.

Ross & Wilson Anatomy and Physiology Colouring and Workbook - E-Book Anne Waugh, Allison Grant, 2022-11-02 This workbook aims to help students build their confidence and consolidate their studies in anatomy and physiology. Fully updated in its sixth edition, the workbook provides full-page colouring exercises for every system of the body, designed to help the reader test their memory and reinforce their knowledge. Students can label diagrams, answer multiple-choice questions and complete a range of exercises that will leave them with a more in-depth understanding of core anatomy and physiology concepts. This is a perfect revision tool for students of nursing and allied health, paramedical science, operating department practice, complementary therapy and massage therapy, as well as trainee healthcare assistants. It is a valuable companion to the 14th edition of Ross & Wilson's *Anatomy and Physiology in Health and Illness* but can also be used in conjunction with any other anatomy and physiology text. An appealing, interactive and engaging way to learn anatomy and physiology, straightforward language and user-friendly approach help students of all levels master difficult concepts with ease. A wide range of exercises suits different learning styles. A bespoke website with a unique online colouring and self-test software program, The Body Spectrum, and other interactive activities, including case studies, support and reinforce learning. A new layout and additional space for students to make their own notes and construct a personalised revision summary.
