Annual Report For The Civic Federation:

The Search for Social Salvation Gary Scott Smith, 2000-01-01 In their studies of social Christianity scholars of American religion have devoted critical attention to a group of theologically liberal pastors primarily in the Northeast Gary Scott Smith attempts to paint a more complete picture of the movement Smith's ambitious and thorough study amply demonstrates how social Christianity which included blacks women Southerners and Westerners worked to solve industrial political and urban problems reduce racial discrimination increase the status of women curb drunkenness and prostitution strengthen the family upgrade public schools and raise the quality of public health In his analysis of the available scholarship and case studies of individuals organizations and campaigns central to the movement Smith makes a convincing case that social Christianity was the most widespread long lasting and influential religious social reform movement in American history **Annual Report** Inter-American Foundation, 1989 Report for 1979 also includes statistics for 1978 **Annual Report of the Heads of the Departments of the City of South Bend, Indiana** South Bend (Ind.), 1916 Legislative Documents Submitted to the ... consumption The Struggle for America's Promise also includes such radical figures as Edward Bellamy and Emma Goldman who were more willing to step beyond the boundaries of the discourse about opportunity and question economic competition itself

Knight, 2006-10-15 Jane Addams was the first American woman to receive the Nobel Peace Prize This biography reveals her early development as a political activist and social philosopher and observes the powerful mind of a woman encountering the radical ideas of her age most notably the ever changing meanings of democracy

Protecting Soldiers and Mothers Theda Skocpol, 2009-06-30 It is a commonplace that the United States lagged behind the countries of Western Europe in developing modern social policies But as Theda Skocpol shows in this startlingly new historical analysis the United States actually pioneered generous social spending for many of its elderly disabled and dependent citizens During the late nineteenth century competitive party politics in American democracy led to the rapid expansion of benefits for Union Civil War veterans and their families Some Americans hoped to expand veterans benefits into pensions for all of the needy elderly and social insurance for workingmen and their families But such hopes went against the logic of political reform in the Progressive Era Generous social spending faded along with the Civil War generation Instead the nation nearly became a

unique maternalist welfare state as the federal government and more than forty states enacted social spending labor regulations and health education programs to assist American mothers and children Remarkably as Skocpol shows many of these policies were enacted even before American women were granted the right to vote Banned from electoral politics they turned their energies to creating huge nation spanning federations of local women s clubs which collaborated with reform minded professional women to spur legislative action across the country Blending original historical research with political analysis Skocpol shows how governmental institutions electoral rules political parties and earlier public policies combined to determine both the opportunities and the limits within which social policies were devised and changed by reformers and politically active social groups over the course of the late nineteenth and early twentieth centuries By examining afresh the institutional cultural and organizational forces that have shaped U S social policies in the past **Protecting Soldiers and Mothers** challenges us to think in new ways about what might be possible in the American future **Southern Discomfort** Nancy A. Hewitt, 2001 Vitally linked to the Caribbean and southern Europe as well as to the Confederacy the Cigar City of Tampa Florida never fit comfortably into the biracial mold of the New South In **Southern Discomfort** the esteemed historian Nancy A Hewitt explores the interactions among distinct groups of women native born white African American and Cuban and Italian immigrant women that shaped women s activism in this vibrant multiethnic city Around the turn of the twentieth century several historical currents converged in Tampa The city served as a center for exiles organizing on behalf of the Cuban War of Independence and as the disembarkation point for U S troops heading to Cuba in 1898 It was the entrepot for thousands of Cuban and Italian immigrants seeking work in the booming cigar trade and it attracted dozens of itinerant radicals eager to address locally based revolutionary clubs mutual aid societies and labor unions Tampa was also home to an astonishing array of voluntary and reform organizations among black and white native born women Emphasizing the process by which women of particular racial ethnic and class backgrounds forged and reformulated their activist identities this masterful volume recasts our understanding of southern history by demonstrating how Tampa s tri racial networks alternately challenged and reinscribed the South s biracial social and political order National Library of Medicine Catalog National Library of Medicine (U.S.), 1960 *The Proof Is in the Dough* Kathryn L. Beasley, 2025-01-15 *The Proof Is in the Dough* examines how rural white and African American women in Alabama and Florida used the Cooperative Extension Service s home demonstration programming between 1914 and 1929 as a means to earn extra income Kathryn L Beasley explores an area of rural women s history that has not been closely examined that is how rural American women involved with home demonstration used the skills they learned as a way to better themselves economically Furthermore Beasley traces how this extra income allowed these women to shape their own producing and consuming habits While most home demonstration programming during the Progressive Era and 1920s focused on ways to save money among other objectives rural women in Alabama and Florida used different strategies to earn more money and gain some economic independence

Beasley's research shows how Alabama and Florida's rural women exercised their own determination and resourcefulness to create ways to economically sustain themselves by using food, tangible items, handicrafts, small businesses, and more to their advantage. However, while there were similarities in how these rural women earned extra money, the states in which they lived differed in important agricultural ways. Florida offered a wider variety of growing and environmental seasons and, as a result, a larger diversity of crops. By taking a comparative approach, both Florida versus Alabama and Black versus white, Beasley details the unique and innovative ways that rural southern women applied their considerable agricultural and domestic skills to improve their lives and the lives of their families. In so doing, she also reveals how disposable income helped establish ideas of empowerment and financial independence in the years before the economic struggles of the 1930s.
