Redefining Adaptation Studies Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 Since films were first produced adapted works have predominantly borrowed primarily from traditional texts such as novels and plays Likewise the study of film adaptations has also been fairly traditional rarely venturing beyond a comparison of the source material to its often less revered counterpart Redefining Adaptation Studies breaks new ground in showing the range of possibilities that transcend the literature film paradigm These essays focus on the idea of adaptation and what it means in different socio-political contexts Above all this collection shows how cultural and political factors determine the meaning of the term and its potential for developing new approaches to learning The contributors to this volume look at adaptation in different contexts and develop new ways to approach adaptation not just as a literature through film issue but as something which can be used to develop other skills such as creative writing and personal and social skills Aimed at teachers in high schools and universities at the under and postgraduate levels this volume not only suggests how adaptation might be used in different disciplines but how it might improve the learning experience for teachers and students alike **Hollywood by Hollywood** Steven Cohan, 2019 The backstudio picture or the movie about movie making is a staple of Hollywood film production harking

back to the silent era and extending to the present day What gives backstudios their coherence as a distinctive genre Steven Cohan argues in *Hollywood by Hollywood* is their fascination with the mystique of Hollywood as a geographic place a self contained industry and a fantasy of fame leisure sexual freedom and modernity Yet by the same token if backstudio pictures have rarely achieved blockbuster box office success what accounts for the film industry s interest in continuing to produce them The backstudio picture has been an enduring genre because aside from offering a director or writer a chance to settle old scores in branding filmmaking with the Hollywood mystique the genre solicits consumers strong investment in the movies Whether inspiring the movie crazy fan girls of the early teens and twenties or the wannabe filmmakers of this century heading to the West Coast after their college graduations backstudios have given emotional weight and cultural heft to filmmaking as the quintessential American success story But more than that a backstudio picture is concerned with shaping perceptions of how the film industry works with masking how its product depends upon an industrial labor force including stardom and with determining how that work s value accrues from the Hollywood brand stamped onto the product Cohan supports his well theorized and well researched claims with nuanced discussions of over fifty backstudios some canonical and well known and others obscure and rarely seen Covering the hundred year timespan of feature length film production *Hollywood by Hollywood* offers an illuminating perspective for considering anew the history of American movies
