Methods in Contemporary Linguistics Andrea Ender, Adrian Leemann, Bernhard Wälchli, 2012-08-31. The present volume is a broad overview of methods and methodologies in linguistics illustrated with examples from concrete research. It collects insights gained from a broad range of linguistic sub-disciplines ranging from core disciplines to topics in cross-linguistic and language internal diversity or to contributions towards language space and society. Given its critical and innovative nature, the volume is a valuable source for students and researchers of a broad range of linguistic interests.

Contemporary Linguistics: Integrating Languages, Communities, and Technologies, 2025-06-26. The International Congress of Linguists (ICL) takes place every five years. It is the meeting where the world's leading linguists present their research and discuss the progress of their work and the state of their profession. 21st ICL Pozna 2024 is a highlight in this series. In twelve plenary lectures, eighteen extensive sections and twelve focus streams, two special panels and numerous workshops, all theories and schools, new developments and emerging sub-disciplines of linguistics are discussed. This book contains the plenary lectures and all introductions to the sections and focus streams that cover special areas of interest and thus offers the State of the Art of Linguistics in 2024.

Discourse Analysis Michael Stubbs, 1991-01-08. The study of naturally occurring connected discourse, spoken or written, is one of the most promising and rapidly developing areas of linguistics. Traditional linguistics has concentrated on the analysis of single sentence or isolated speech acts. In this important new book, Michael Stubbs shows that linguistic concepts can be extended to analyse spontaneous and informal talk in the home, classroom or factory and indeed written narrative. Using copious examples drawn from recorded conversations, field work observations, experimental data and written texts, he explores such questions as how far discourse structure is comparable to sentence structure, whether it is possible to talk of well formed discourse as one does of grammatical sentences, and whether the relation between question and answer in conversation is syntactic, semantic or pragmatic. He also demonstrates some of the limitations of contemporary linguistics and speech act theory which neglect key aspects of native speaker fluency and communicative competence. Although written from a predominantly linguistic perspective, the book is informed by insights from sociology and anthropology. Theoretical debate is accompanied by discussion of real life.
