the tendency of his party an anti Shi ite faction based on the Arab Mudar tribal group in al Kufah that had lost out with the fall of the Umayyads and the coming of the Abbasids to power Although Sayf s transmissions thus have limited value as far as the earliest conquests themselves are concerned they are of the utmost value in revealing the content and character of Islamic historical debates in the late 2nd 8th century In addition they permit us to elucidate and reconstruct an early harmonizing tendency in Islam that undoubtedly had a significant effect on the way later Muslims viewed their earliest history The translation is preceded by an introduction analyzing the tendencies of Sayf and his party as revealed in this volume Extensive notes accompany the text for the benefit of historians in other fields as well as of Islamic specialists
