Chapter 23

1. V44.5XXA Index to External Causes, Accident, car—see Accident, transport, car occupant
Accident, transport, car occupant, driver, collision (with), truck (traffic)

Y92.411 Index to External Causes, Place of occurrence, highway (interstate)

Y93.C2 Index to External Causes, Activity (involving) (of victim at time of event),
cellular, telephone

The transport accident codes have been greatly expanded in ICD-10-CM with much more detail. It takes experience to get used to the External Causes Index and Tabular sections. Just getting familiar with both is a help to coding these conditions correctly. An appropriate seventh character is to be added to each code from category V43. If the code does not contain six characters, the X is used before placing the seventh character. No status code was selected because this information was not documented.

2. Y37.230A Index to External Causes, Military operations (injuries to military and civilians occurring during peacetime on military property and during routine military exercises and operations) (by) (from) (involving) explosion (of) improvised explosive device [IED] (person-borne) (roadside) (vehicle-borne)

Y92.139 Index to External Causes, Place of occurrence, military base—see Place of occurrence, residence, institutional, military base

Y99.1 Index to External Causes, External cause status, military activity

There is no activity code assigned here because none of the categories is specific to this case.

Even though Y93.89 (other activity) is available, it is not assigned in this case because of this
