On The Move to Meaningful Internet Systems 2003: OTM 2003 Workshops Zahir Tari,2003-10-25 missions in fact also treat an envisaged mutual impact among them As for the 2002 edition in Irvine the organizers wanted to stimulate this cross pollination with a program of shared famous keynote speakers this year we got Sycara ble Soley and Mylopoulos and encouraged multiple attendance by providing authors with free access to another conference or workshop of their choice We received an even larger number of submissions than last year for the three conferences 360 in total and the workshops 170 in total Not only can we therefore again claim a measurable success in attracting a representative volume of scientific papers but such a harvest allowed the program committees of course to compose a high quality cross section of worldwide research in the areas covered In spite of the increased number of submissions the Program Chairs of the three main conferences decided to accept only approximately the same number of papers for presentation and publication as in 2002 i e around 1 paper out of every 4 5 submitted For the workshops the acceptance rate was about 1 in 2 Also for this reason we decided to separate the proceedings into two volumes with their own titles and we are grateful to Springer Verlag for their collaboration

in producing these two books The reviewing process by the respective program committees was very professional and each paper in the main conferences was reviewed by at least three referees

Children's Mental Health and the Life Course Model: A Virtual Workshop Series National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Forum for Children's Well-Being: Promoting Cognitive, Affective, and Behavioral Health for Children and Youth, 2021-01-18 With rapidly rising rates of mental health disorders changing patterns of occurrence and increasing levels of morbidity the need for a better understanding of the developmental origins and influence of mental health on children's behavioral health outcomes has become critical This need for better understanding extends to both the growing prevalence of mental health disorders as well as the role and impact of neurodevelopmental pathways in their onset and expression Addressing these changes in disease patterns and effects on children and families will require a multifaceted approach that goes beyond simply making changes to clinical care or adding personnel to the health services system New policies financing and implementation can put established best practices and numerous research findings from around the country into action The Maternal and Child Health Life Course Intervention Research Network and the Forum for Children's Well Being at the National Academies of Sciences Engineering and Medicine jointly organized a webinar series to explore how mental health disorders develop over the life course with a special emphasis on prenatal early middle and later childhood development This series centered on identifying gaps in our knowledge exploring possible new strategies for using existing data to enhance understanding of the developmental origins of mental disorders reviewing potential approaches to prevention and optimization and proposing new ways of framing how to understand address and prevent these disorders from a life course development perspective This publication summarizes the presentations and discussions from the series
