Études de marché Jean-Luc Giannelloni, Eric Vernet, 2019-12-12 Vritable référence ce manuel couvre l'ensemble du champ des études de marché. Il a été labellisé par la Fnege en 2017. Depuis sa première édition en 1995, cet ouvrage est devenu le manuel français de référence. Il présente la totalité du processus d'étude du projet au rapport, ainsi qu'un très vaste panel de méthodes qualitatives et quantitatives d'analyse de données. Ponctué par un test de connaissance, les différents chapitres mettent l'accent sur les concepts clés en s'appuyant sur de nombreux exemples et études de cas. La nouvelle édition propose des mises à jour sur les évolutions de la discipline, dont le digital, bases de données, focus groups, plateformes de co-création, observation digitalisée, panels, questionnaires administrés en ligne, etc., et de nouveaux exemples et études de cas. *JADT 2004* Gérald Purnelle, 2004. Que peut-on apprendre de la distribution des mots dans un texte ? Cette question traduit l'une des préoccupations centrales de la statistique textuelle : tirer de l'observation quantitative des mots l'observation de leur présence ou absence, co-occurrence ou répartition. Des enseignements permettant de mieux connaître le ou les textes qu'ils composent ou plus largement les langues auxquelles ils appartiennent. La statistique des données textuelles intresse donc des disciplines scientifiques variées qui prennent le texte comme objet d'étude : par exemple dans le cadre de l'analyse littéraire, de la stylistique, de l'analyse du discours, politique, de la linguistique de corpus, de la classification de documents, de la recherche d'information ou encore de la fouille de texte ou text mining. Comme l'illustrent de nombreux articles de cet ouvrage, la statistique textuelle stimule par la croissance rapide du volume de textes accessibles sur support numérique : courrier électronique, chat, forum, Web, SMS, etc., offre également de puissants outils pour faire face aux nouveaux besoins et défis de la société de l'information. Les Journées internationales d'analyse des données textuelles (JADT) permettent des chercheurs travaillant dans les différents domaines concernés par les traitements automatiques et statistiques de données textuelles de se rencontrer tous les deux ans afin de confronter leurs expériences. Après les rencontres de Barcelone 1990, Montpellier 1993, Rome 1995, Nice 1998, Lausanne 2000 et St Malo 2002, les JADT 2004 de Louvain-la-Neuve ont réuni du 10 au 12 mars 2004 statisticiens, linguistes, sociologues, spécialistes d'analyse du discours, informaticiens, spécialistes de lexicographie et d'explorations de données textuelles. *Digitised Newspapers - A New Eldorado for Historians?* Estelle Bunout, Maud Ehrmann, Frédéric Clavert, 2022-12-31. The application of digital technologies to historical newspapers has changed the research landscape: historians were used to an Eldorado. Despite undeniable advantages, the new digital affordance of historical newspapers also transforms research practices and confronts historians with new challenges. Drawing on a growing community of practices, the *impresso* project invited scholars experienced with digitised newspaper collections with the aim of encouraging a discussion on heuristics, source criticism and interpretation of digitized newspapers. This volume provides a snapshot of current research on the subject and offers three perspectives: how digitisation is transforming access to and exploration of historical newspaper collections; how automatic content processing allows for the creation of new layers of

information and finally what analyses this enhanced material opens up

impresso Media Monitoring of the Past is an interdisciplinary research project that applies text mining tools to digitised historical newspapers and integrates the resulting data into historical research workflows by means of a newly developed user interface The question of how best to adapt text mining tools and their use by humanities researchers is at the heart of the impresso enterprise *French theories on text and discourse* Driss Ablali, Guy Achard-Bayle, 2023-01-30 It could be alleged that present day French linguistics is characterized by a specific connection between the epistemology of text and that of discourse The contributions gathered in this volume aim to reconsider this link or dichotomy in light of the latest research developments They are organized in three parts the first explores the text discourse connection while the second and third tackle the epistemologies of text and discourse **Livres hebdo**, 2007 **Le travail social et la nouvelle gestion publique** Céline Bellot, Maryse Bresson, Christian Jetté, 2013-12-04T00:00:00-05:00 Le tournant gestionnaire imposé par la crise de l'état providence et la gouvernance n'olibérale n'est plus de montrer De partout les politiques sociales et les services sociaux sont modulés par les mots d'ordre de la nouvelle gestion publique responsabilisation performance rentabilité Plus qu'un nouveau vocabulaire ce nouveau cadre de pensée et d'action induit des transformations profondes des mécanismes de protection et de régulation sociales Comment le travail social se positionne-t-il dans ce contexte qui n'est pas exempt d'ambiguïtés et même de contradictions sur les plans social et politique Quels sens donner au soutien des populations vulnérables dans le cadre d'une performance objective et quantifiable Quelles innovations ont émergé Cet ouvrage rend compte, à partir des regards croisés de chercheurs d'Europe comme du Québec, des enjeux et des défis du travail social au regard de la nouvelle gestion publique et surtout de la diversité et de la complexité de ceux-ci Il y est non seulement question de la modification des politiques et des cadres de l'intervention sociale mais aussi des mutations des pratiques des travailleurs sociaux ainsi que des effets sur la formation et sur l'identité professionnelle L'attendue des réflexions proposées dans l'ouvrage alimentera certainement les débats sur le devenir du travail social
