LAB: SHEEP HEART DISSECTION

Purpose

To review the major anatomical structures of the human heart and examine major anatomical structures of a mammalian (sheep) heart.

Materials

- | | | |
|-------------------------|------------|---------------------|
| • Preserved sheep heart | • Probe | • Gloves |
| • Dissecting pan | • Scissors | • Whiteboard Marker |
| • Scalpel | • Tweezers | |

PART A—The Human Heart

1. Using your notes and wonderful memory to label the diagram of the human heart.
2. Read through the analysis questions on your lab report as you should be answering them as a groups as you dissect the sheep heart.

PART B—Dissection of a Sheep Heart

Review your LAB ROLES. Use a whiteboard marker to put a ✓ in each box below.

1. Place the heart in a dissecting tray with its anterior surface up (See Figure 1 below). Locate the interventricular sulcus and label it with a solid black line. Have your team leader check to make sure you have labeled this correctly. ☐
 - a. Locate the visceral pericardium, which appears as a thin, transparent layer on the surface of the heart. Use a scalpel to remove a portion of this layer and expose the myocardium beneath. Also note the abundance of fat along the paths of various blood vessels. This adipose tissue occurs in the loose connective tissue that underlies the visceral pericardium. ☐
 - b. Identify the following:
 - right atrium ☐
 - right ventricle ☐
 - left atrium ☐
 - left ventricle ☐
5. Examine the posterior surface of the heart (Figure 2 below). Locate the coronary sulcus and label it with a solid black line. Have your team leader check to make sure you have labeled this correctly before proceeding. ☐

FIGURE 1

Check for Understanding:

Identify the following anatomical structures:
interventricular sulcus, visceral pericardium,
myocardium, adipose tissue, coronary sulcus

Hey,

Doc! Are You Listening to Your Heart? Richard Sheff, 2008-09-29 If you want to help change medicine give this book to your doctor Hey Doc the true story of Dr Richard Sheff's personal journey through medical training as a family physician shows us a new way to understand doctors and ourselves as patients I knew then as now there is something terribly lacking in how we take care of patients and train physicians Over two decades in medicine has taught me that the most potent tool for healing we as physicians have is our heart But each of us must learn to listen to our own heart before we can touch and heal the hearts of our patients While this book is a must read for anyone considering a career in medicine Hey Doc speaks to the patient in all of us Readers will understand their own doctor and come away with new hope that when sick and most vulnerable they can be heard understood and touched by their physician Dr Sheff teaches us the surprising truth that in their hearts doctors yearn for the same connection with us Exercises for the Anatomy & Physiology Laboratory Erin C. Amerman, 2019-02-01 This concise inexpensive black and white manual is appropriate for one or two semester anatomy and physiology laboratory courses It offers a flexible alternative to the larger more expensive laboratory manuals on the market This streamlined manual shares the same innovative activities based approach as its more comprehensive full color counterpart Exploring Anatomy Physiology in the Laboratory 3e **Rhetoric in the Flesh** T. Kenny Fountain, 2014-07-11 **Rhetoric in the Flesh** is the first book length ethnographic study of the gross anatomy lab to explain how rhetorical discourses multimodal displays and embodied practices facilitate learning and technical expertise and how they shape participants perceptions of the human body By investigating the role that discourses displays and human bodies play in the training and socialization of medical students T Kenny Fountain contributes to our theoretical and practical understanding of the social factors that make rhetoric possible and material in technical domains Thus the book also explains how these displays discourses and practices lead to the trained perspective necessary for expertise This trained vision is constructed over time through what Fountain terms embodied rhetorical action an intertwining of body object environment that undergirds all scientific medical and technical work This book will be valuable for graduate and advanced undergraduate courses in technical and professional communication technical communication theory and practice visual or multimodal communication medical technical communication and rhetorical studies including visual rhetoric rhetoric of science medical rhetoric material rhetoric and embodiment and ethnographic approaches to rhetoric **Biology**, 1999 They Touched My Life Robert Rose Ph.D., 2000-10-18 Be an elementary teacher In 1958 this was not even a consideration I was going to be a child psychiatrist and novelist I hadn't done any writing during my four years in the U S Air Force but I had functioned as a psychologist social worker At twenty one I had my own office and I was giving marriage counseling to noncommissioned officers and officers who were decades older than I was I had practical experience doing individual and group therapy and even used psychodrama techniques The psychiatrists I worked with all believed I was a natural therapist and they gave me dozens of books to read we discussed their cases and they wrote recommendations for me for medical school My goals were

lofty then reality set in I didnt have the money or grades to become a doctor My bachelors degree in psychology was next to useless A friend suggested I teach while I pursued advanced degrees to become a child psychologist It was a painful compromise I had already given up my dreams of becoming a professional actor or athlete and I would have to be an elementary rather than a high school teacher so I couldnt coach football or track It was like being a dishwasher rather than a restaurant owner There was also the commonly held belief then that a male elementary teacher must be somewhat effeminate if not an outright homosexual Throughout my career people have been surprised disappointed that a man who looks like a light heavyweight boxer could be a teacher of small children Still I had a wife and a child to support so I got a teaching credential I had been bored in school and I was determined to make my classes interesting but I was totally unprepared emotionally educationally or organizationally I was wildly successful only because I was charismatic creative and I truly enjoyed the children The more I realized how much more effective I could be with so many more children every year as a teacher than I could be as a psychologist the more I knew I had stumbled into a great career I had found my calling I could express my artistic self through music art dancing and drama My athletic needs were met by playing with the children while teaching them all the sports I loved I had a captive audience for my need to perform as I read to them dramatically and transmitted my eclectic love of learning I was proficient in many psychological techniques which came in handy as I probed their brains and changed their behaviors I was almost too clinical in the first few years as I secretly tested my children using the ink blot test sentence completion and the TAT ambiguous pictures which I used as means to motivate their writing Later I realized that it was not so much the testing as it was the time I spent individually with children that made the difference I was interested in each of them and they knew it and so they shared their lives inside and outside the school as if I was their therapist Therapists never get the opportunity to see their clients in the environments that are causing their problems I not only saw things through their eyes and the dynamics of their relationships but I was in the position to actually change these by what I did Whether it was as simple as changing their seat or reading group or placing them in allegedly extemporaneous plays to act out feel a role that they needed to experience I made immediate changes in their lives It was then I knew that my often traumatic experiences as a gifted Jewish child alone in hostile schools where I was seen as an evil presence was not unusual It was not religious racial cultural or gender differences alone it was the very structure of the schools that caused the horrific and demeaning situations that almost every child experiences The const
