Broken Timelines - Book 1: Egypt Jack Stornoway, 2019-03-26 The current timeline of dynastic Egypt is impossible Believing in it means endorsing the idea the Hyksos were time travelers and that the Egyptians were technologically a thousand years behind their major trading partners in Mesopotamia during the Middle Kingdom It also is not what the ancient Egyptians actually recorded so believing it means believing that modern Egyptologists know more about ancient Egypt than the ancient Egyptians themselves Given that the ancient Egyptians lived through it and all Egyptologists have to go on is random bits of pottery and mostly ruined buildings this seems like an incredible stretch of the imagination granted no more than time traveling Hyksos but still a stretch The fact that Egyptologists feel they don't need to explain these anachronisms because the history of Egypt is a political timeline not subject to science is insulting both to the intelligence and to the integrity of anyone that bothers looking into the history of this preeminent ancient culture The idea that the ancient Egyptians built docks in the middle of the desert and then dredged out mind boggling amounts of mud to move the Nile to the docks is beyond ridiculous Maybe that's how Egyptologists would do it but the existence of the pyramids proves the ancient Egyptians just weren't that stupid The fact that they did dredge mind boggling amounts of mud simply proves that the Nile water levels were dropping rapidly at the end of the Old Kingdom The fact that Egyptologists ignore the ancient Egyptian records of the pre Dynastic era is probably for the best imagine the nonsense they would have made up to explain the Osireion if they had to admit it is 15 000 years old Unfortunately the timeline of Egypt is the cornerstone of ancient history As the Sumerian and later Mesopotamian civilizations were trading with the Egyptians the Mesopotamian timeline is broken as the dates of certain Egyptians Kings are known to have lived at

the same time as certain Mesopotamian Kings This means that the bulk of the recorded history of Sumer has to be ignored by Assyriologists as it just doesn't fit into the Egyptian timeline As the Harappan history is then dated according to when they were trading with the Mesopotamians and Indologists also fall subject to the inventive nonsense of Egyptologists This means that Indologists have to accept the impossible fact that the bronze age Harappan civilization existed next to the iron age Ganges civilization for over 500 years and never noticed they were there These broken timelines then fan out further pulling the Minoans and Greeks Iranians and Chinese into this confusing mess *History of Ancient Peoples* W. Boughton,

History of Ancient Peoples Willis Boughton, 1896 *The Antiquities of Egypt* Diodore de Sicile, 1990-01-01 Diodorus Siculus a prolific Greek historian of the first century B C wrote a detailed account of ancient Egypt for his contemporaries Even then Egyptian civilization was ancient stretching back to eras far more remote to him than Greek civilization is to us Egypt was a land of mystery to the Greeks Its pyramids were inexplicable its writings undecipherable its religion unfathomable Its strange laws and stranger customs such as mummification were perplexing The very land itself was mysterious no one knew the source of the Nile or why it overflowed its banks each year with never a drop of rain The history and mysteries of Egypt were the sole subject of the Book I of the Library of History Diodorus encyclopedic attempt to gather all the historical knowledge of the world into one vast book The Antiquities of Egypt is the first translation of Diodorus treatise prepared especially for the general reader but it will appeal to a wide range of scholars and specialists as well The only other English version in print is a literal accompaniment to the edited Greek text published over fifty years ago This new translation is accurate and easy to read while the notes and appendices amplify and elucidate the text setting the narrative in historical and cultural perspective for the nonspecialist The illustrations add a graphic support to the text Students and teachers of ancient history Egyptology archeology and anthropology will find Antiquities of Egypt both accessible and valuable Specialists in literature mythology and comparative religion will find it absorbing and useful introduction to early source material in their fields of study Edwin Murphy is an independent scholar specializing in ancient and medieval history He is employed in the Treasury Department Washington D C Murphy has also translated Book II of Diodorus Library of History The Antiquities of Asia also published by Transaction The Best of History Web Sites Thomas Daccord, 2007 Educator and technology trainer Thomas Daccord has painstakingly selected and compiled this guide to the best history sites for use in high school academic and public libraries The Best of History Web Sites is the quickest path to a rich variety of content including multimedia presentations subject gateways lesson plans and activities primary resources interactive quizzes and games virtual tours maps and atlases statistical collections and more Awakening the Planetary Mind Barbara Hand Clow, 2011-09-21 Completing our conscious evolution by releasing our collective fear of catastrophes Explains how we are on the cusp of an era of incredible creative growth Shows how we are about to overcome the collective fear caused by ancient catastrophes as we awaken to the memories of our lost prehistory Examines legendary cataclysms and scientific

evidence of a highly advanced global culture that disappeared 11 500 years ago In this completely revised and expanded edition of Catastrophobia bestselling author Barbara Hand Clow explains how we are on the cusp of an age of incredible creative growth made possible by restoring our lost prehistory Examining legendary cataclysms such as the fall of Atlantis and the biblical Flood and the mounting geological and archaeological evidence that many of these mythic catastrophes were actual events she reveals the existence of a highly advanced global maritime culture that disappeared amid great earth changes and rising seas 14 000 to 11 500 years ago nearly causing our species extinction and leaving humanity s collective psyche deeply scarred Tracing humanity s reemergence after these prehistoric catastrophes Clow explains how these events in the deep past influence our consciousness today Guided by Carl Johan Calleman s analysis of the Mayan Calendar she reveals that as the Earth s 26 000 year precessional cycle shifts our evolution is accelerating to prepare us for a new age of harmony and peace She explains how we are beginning a collective healing as ancient memories of prehistory awaken in our minds and release our unprocessed fear Passed from generation to generation this fear has been responsible for our constant expectations of apocalypse She shows that by remembering and moving beyond the trauma of our long lost past we bring the era of cataclysms to an end and cross the threshold into a time of extraordinary creative activity Handbook of Intellectual Disabilities Johnny L. or Egyptologists Several scholars Finkelstein Dever and others posit that the Exodus narrative may have developed from collective memories of the Hyksos expulsions of Semitic Canaanites from Egypt possibly elaborated on to encourage resistance to the 7th century domination of Judah by Egypt For these scholars the liberation from Egypt after the 10 plagues as it is written in the Book of Exodus is quite different from the historical war of liberation against the Hyksos What are the Egyptian documents underlying this hypothesis none and what is the chronology of this mysterious war nobody knows Consequently who to believe Moses or Egyptologists This study will give the answer

The Historical Method of Herodotus Donald Lateiner, 1989-01-01 Herodotus was the first writer in the West to conceive the value of creating a record of the recent past He found a way to co ordinate the often conflicting data of history ethnology and culture The Historical Method of Herodotus explores the intellectual habits and the literary principles of this pioneer writer of prose Donald Lateiner argues against the perception that Herodotus work seems amorphous and ill organized that the Histories contain their own definition of historical significance He examines patterns of presentation and literary structure in narratives speeches and direct communications to the reader in short the conventions and rhetoric of history as Herodotus created it This rhetoric includes the use of recurring themes the relation of speech to reported actions indications of doubt stylistic idiosyncrasies frequent reference to nonverbal behaviours and strategies of opening and ending Lateiner shows how Herodotus sometimes suppresses information on principle and sometimes compels the reader to choose among contending versions of events His inventories of Herodotus methods allow the reader to focus on typical practice not misleading exception In his analysis of the structuring concepts of the Histories Lateiner scrutinizes Herodotean time and chronology He considers the historian s admiration for ethnic freedom and autonomy the rule of law and the positive values of conflict Despite these apparent biases he argues the text s intellectual and moral preferences present a generally cool and detached account from which an authorial personality rarely emerges The Historical Method of Herodotus illuminates the idiosyncrasies and ambitious nature of a major text in classics and the Western tradition and touches on aspects of historiography ancient history rhetoric and the history of ideas
