Strategic Thinking and

Planning Daryl Fischer, Laura B. Roberts, 2018-10-05 Strategic Thinking and Planning Second Edition is volume four in the Museum Trustee Association's Templates for Trustees series. The book and customizable web-based templates feature tools that help boards to consider their options, identify their priorities, and plan their actions at this critical moment in a museum's life cycle. In addition to the manual and on-line website, purchasers have access to the ongoing assistance of MTA staff. This book and the accompanying templates model the kind of thinking that is required not only to create a strategic plan that is tailored to each institution but also to stay focused on the strategic aspects of governance while implementing that plan. Planning teams are introduced to exercises and tools that will help them focus on what's most important to the future of their institution. In using the templates, they will adopt new ways of analyzing information and thinking about their museum's mission that will make them more effective leaders.

Project Leader to Project Believer John Kackley, 2015-04-26 This mentoring guide inspires project managers to move on to project leadership, an engaged, constructive, committed role leading to project success. Library Technology Planning for Today and Tomorrow Diana Silveira, 2018-10-15 Technology is a crucial part of libraries today. But when it comes to figuring out the most effective technologies for their library or to planning for future technology needs, many librarians don't know where to begin. *Library Technology Planning for Today and Tomorrow* is the place to start. This practical guide will be of special value to those in small and medium-size libraries, especially those new to the planning process who have not previously implemented technology or who have had difficulty implementing strategic plans. By using this LITA guide, overwhelmed librarians can create a sound, realistic technology plan and implement that plan by identifying each step necessary to accomplish the library's goals. As they follow this road map from beginning to end, library staff will be able to meet the technology needs of their communities and to achieve their library's technology goals. This step-by-step guide takes the reader through the process of successfully creating and implementing a library technology plan. Each chapter addresses an aspect of planning and implementation, from conducting a technology audit and selecting appropriate devices to deploying new technologies and training staff and users. Further, this LITA guide will help librarians evaluate the success of their work in developing and implementing their technology plans.
