Miller,1984 *The two reformations in the 16th century* H.A.Enno Gelder,2012-12-06 This book deals with the religious aspects and consequences of the Renaissance and Humanism It is therefore advisable that these terms should first be defined to some extent By Re naissance is meant here the new element in Western European culture which became more and more evident in Italy during the I5th century and in about I500 completely dominated the great minds in that country In the I6th century this new ele ment was carried to the countries on the other side of the Alps where it developed vigorously during that century The new element in that culture is found in the plastic arts literature philosophy and also and this is the subject of the present study in a modified religious attitude The following chapters will show the content of this last change Problems such as what in general characterizes the Renaissance by what was it caused when did it begin and in particular whether the Re naissance forms a sharp contrast to the Middle Ages or whether it is a direct continuation of it will not be discussed here It will be clear from the above definition that I have placed first and foremost those things in the Renaissance which distinguish it from the Middle Ages Luther and the Dawn of the Modern Era Heiko A.
