approach features a scenario at the beginning of each chapter suited to that chapter's focus which is summarized at the chapter's end centering on a fictional MA who needs to make decisions and address critical issues to help students develop sound critical thinking and decision making skills. Many new chapter features including an all new interior design, tighter focus, new color palette and fresh icons enliven this edition and make information easy to follow. Increased emphasis on medical terminology features a vocabulary spelling and terminology review in the Student Study Guide and bolded words within the chapter to reinforce medical terminology in context. Figures have been revised, replaced and augmented to accurately reflect the current medical office environment and provide clearer graphics. More images of equipment, more disease examples and better illustration of key procedural steps. Major websites related to the field are provided to help MA students to find more information online and stay current with business news and medical industry developments. Transdisciplinary themes are introduced in an applied context: legal, ethical, communication, professionalism, patient education and office management woven throughout the chapters in scenarios and in critical thinking applications. Two new coding chapters: Chapters 15 & 16 separate coding information into two distinct chapters for increased focus on this essential administrative skill, presenting sufficient background to get started in this area. Revised organization more closely aligns the book's progression with the AAMA and RMA curricula, grouping topics together more logically. Contextual exercises and applications are incorporated throughout the chapters. Content has been reworked and updated to provide more real world emphasis.
