

Bats

Reading Comprehension With Multiple-Choice Questions

The image displays three overlapping sample pages from a reading comprehension worksheet titled "Bats". The central page is the most prominent and contains the following content:

Topic: Bats

Bats are the only mammals that can fly. They have wings made of skin stretched over their long fingers. Bats are nocturnal, meaning they are active at night. They use echolocation to navigate and find food. Echolocation is a process where bats emit sound waves that bounce off objects and return to the bat, allowing it to determine the object's location and size. Bats are also important for the environment because they eat insects that can damage crops. Some bats are also used in the food chain, such as in the case of the Mexican free-tailed bat, which is eaten by birds of prey.

Multiple-Choice Questions:

1. What are bats' wings made of?
a. Skin
b. Bone
c. Muscle
d. Cartilage
2. What does it mean to be nocturnal?
a. Active during the day
b. Active at night
c. Active in the morning
d. Active in the evening
3. How do bats use echolocation?
a. They emit sound waves that bounce off objects.
b. They use their eyes to see.
c. They use their ears to hear.
d. They use their nose to smell.
4. Why are bats important for the environment?
a. They eat insects that damage crops.
b. They are used in the food chain.
c. They are used in the medical industry.
d. They are used in the entertainment industry.

The two pages on either side of the central page show similar content, including a title, a paragraph of text, and multiple-choice questions. The pages are slightly faded and overlap, suggesting they are part of a larger set of materials.

Answer Key To Comprehension Bats

Louis Fidge

Answer Key To Comprehension Bats:
