Study Guide for Decoding Persepolis Steven Smith, 2023-11-10 Decoding Persepolis takes the reader deep into Marjane Satrapi's *Persepolis: The Story of a Childhood* offering a comprehensive look into the memoir's exploration of character dynamics, themes, symbolism, and the overarching narrative. The guide begins by exploring Marjane's intricate relationships with her family and friends, which form the emotional backbone of the story. Throughout the memoir, Marjane navigates a labyrinth of conflicts mirroring the tumultuous environment of revolutionary Iran. These conflicts range from internal struggles with faith and identity to confrontations with societal norms, the education system, and the broader political turmoil that envelops her country. This guide examines the author's use of potent symbolism throughout the narrative, using elements like the veil, keys to paradise, and cigarettes to convey repression, manipulation, and rebellion themes. The climax of the story is reached with Marjane's increasing rebellion against societal norms, leading to her parents' decision to send her to Austria. This moment of departure marks a significant transition in her life, symbolizing not just a physical departure but also a departure from childhood. *Persepolis* provides a deeply personal glimpse into a critical period of Iranian history, inviting readers to reflect on the intersections of politics, family, and personal development. Through its exploration of Marjane's growth amidst political upheaval, *Decoding Persepolis* aims to enhance students' understanding of the memoir, unpacking Satrapi's complex themes and narrative strategies.

Bring History Alive! Kirk Ankeney, 2011-06-15 [Bringing History Alive through Local People and Places](#) Lynne Dixon, Alison Hales, 2013-12-04 A much needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality, and community, the national and global past, and concepts of time. Throughout, the authors empower teachers to adopt their philosophy by showing them how to plan, select resources and strategies, and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. *Bringing History Alive through Local People and Places* puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national, and global aspects of history, and helps you develop your own historical knowledge, understanding, and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork; Finding and visiting local museums, archives, and heritage sights; Choosing and using resources; Using significant people, events, and buildings to link with national history; Environmental education and sustainable development through local history; Understanding the links between history and everyday life; Planning and assessing history. Based on the latest research and practice in the field, *Bringing History Alive through Local People and Places* offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children.
