Future Information Society, The: Social And Technological Problems Wolfgang Hofkirchner, Mark Burgin, 2017-01-24 This book is the first volume of a two volume edition based on the International Society for Information Studies Summit Vienna 2015 on The Information Society at the Crossroads Response and Responsibility of the Sciences of Information see summit.is4is.org The book represents a trans disciplinary endeavor of the leading experts in the field of information studies posing the question for a better society in which social and technological innovations help make information key to the flourishing of humanity and dispense with the bleak view of the dark side of information society It is aimed at readers that conduct research into any aspect of information information society and information technology who develop or implement social or technological applications It is also for those who have an interest in participating in setting the goals for sciences of information and social applications of technological achievements and scientific results **Judging European Democracy** Nik de Boer, 2023-07-16 In several EU Member States constitutional courts have reviewed European law on its compatibility with national constitutional law These judgments deal with issues of major importance such as EU democratic legitimacy the protection of fundamental rights and the status of national sovereignty within the EU Yet should national courts decide such issues of key constitutional significance for the EU Or is it more democratic to leave these matters to political institutions that represent Europe's citizens and are politically accountable to them In Judging European Democracy Nik de Boer argues that the national courts review of European law can actually constrain democratic debate over the EU's constitutional underpinnings Rather than opening up a space for discourse or addressing democratic problems with the EU's decision making process national courts risk taking sides in good faith political disagreements among elected legislators about constitutional questions relating to the EU thus distorting rather than protecting the democratic decision making process Judging European Democracy uniquely combines constitutional and political theory with an in depth case study of the German Constitutional Court the EU's most authoritative constitutional court Based on an extensive analysis of parliamentary debates EU policy documents and interviews with politicians policymakers and constitutional court judges the case study shows how the German Constitutional Court has distorted political debate and democracy in the EU Scholars practitioners and policymakers involved in political theory political science EU constitutional law and European integration will find this book compelling **Crises and Integration in European Banking Union** Christopher Mitchell, 2024-01-21 Crises and Integration in European Banking Union builds a theory of how the combination of crisis severity and origin indicates whether a crisis will produce deep reform modest reform or a persistence of the pre crisis status quo **A Monetary Hope for Europe** Max Guderzo, Andrea Bosco, 2016 A Monetary Hope for Europe This book studies the euro in a global perspective and opens a new series edited by the Jean Monnet European Centre of Excellence of the University of Florence Verso l'unificazione europea Most of the chapters have been written by economists who met and discussed their diverse views at a

multi disciplinary conference organized by the Centre in May 2013 under the title The euro and the struggle for the creation of a new global currency Problems and perspectives in the building of the political financial and economic foundations of the European federal government The list of contributors also includes historians as well as European and international law academics Their essays have been revised on the basis and against the backdrop of an ongoing crisis of both the euro and the whole European project in the last years and months The volume aims to provide useful data and interpretations to improve knowledge on the euro and the European Union in their economic historical juridical and political perspectives

Children and Forced Migration Marisa O. Ensor, Elżbieta M. Goździak, 2017-02-23 This book responds to the reality that children and youth constitute a disproportionately large percentage of displaced populations worldwide It demonstrates how their hopes and aspirations reflect the transient nature of their age group and often differ from those of their elders It also examines how they face additional difficulties due to the inconsistent definition and uneven implementation of the traditional durable solutions to forced migration implemented by national governments and international assistance agencies The authors use empirical research findings and robust policy analyses of cases of child displacement across the globe to make their central argument that the particular challenges and opportunities that displaced children and youth face must be investigated and factored into relevant policy and practice promoting more sustainable and durable solutions in the process This interdisciplinary edited collection will appeal to students and scholars of forced migration studies development conflict and peace building and youth studies along with policy makers children s rights organizations and NGOs

Social Policy and EU Polity-building Through Crises and Beyond Anna Kyriazi, Joan Miró, Marcello Natili, Stefano Ronchi, 2024-10-28 This volume sets out to explain the conditions that have favoured the expansion of the European social dimension during the turbulent decade of 2010 20 when Europe was confronting strong countervailing pressures including the euro crisis the refugee crisis and the COVID 19 pandemic The study begins by diagnosing a widespread although slow burning crisis across

the European Union EU resulting from the cumulation of social problems and the systemic tension between EU market integration on the one hand and nationally bounded welfare states and the other Eight in depth case studies analyse the political dynamics behind a variety of EU social initiatives aimed at addressing the consequences of free movement of workers youth unemployment poverty eroding wages environment and climate change and the COVID 19 pandemic To identify the specific drivers of EU social policymaking empirically the authors have reconstructed the struggles over concrete policy proposals as they unfolded in the European multilevel setting The volume introduces a novel analytical framework for interpreting the transformation of the EU social dimension in times of crisis when some degree of social co ordination becomes crucial to bond deeply different welfare states together This in depth study offers an invaluable analysis for researchers academics and professionals interested in the functioning of the European polity The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Fiscal Monitor, October 2024 International Monetary Fund. Fiscal Affairs Dept.,2024-10-23 Global public debt is elevated It is projected to exceed US 100 trillion in 2024 and will rise over the medium term This chapter shows that risks to the debt outlook are heavily tilted to the upside In a severely adverse scenario global debt is estimated to be nearly 20 percentage points of GDP higher three years ahead than the baseline projection reaching 115 percent of GDP Much larger fiscal adjustments than currently planned are required to stabilize or reduce debt with high probability Now is an opportune time for rebuilding fiscal buffers and delaying is costly Rebuilding fiscal buffers in a growth friendly manner and strengthening fiscal governance is essential to ensure sustainable public finances and financial stability **NATO Review** ,1983

Europe and the Governance of Global Finance Daniel Mügge,2014 The European Union EU has emerged as a central actor in financial governance Hardly any corner of European financial markets remains untouched by EU rules and key regulatory competences have been shifted from national authorities to supranational ones At the same time the global context has become ever more important for how and to what effect the EU regulates its financial markets On the one hand EU policymaking is embedded in global initiatives such as the Basel Committee on Banking Supervision On the other hand the EU now rivals the USA in its ability to shape global rules Scholars and practitioners cannot make sense of EU rulemaking without studying its links to global financial governance just as to understand how global initiatives evolve they have to appreciate the rise of the EU as a global regulatory force This book charts and analyses this centrality of the European global link in financial governance for the first time Its chapters written by experts in the specific fields cover the whole breadth of financial markets They range from banking auditing and accounting to derivatives trading money laundering and tax governance This book offers comprehensive coverage of how and why global and European financial governance have co evolved over time how global and European rules institutions and actors are linked today and what this implies for future global and European financial governance It is essential reading for anyone who wants to understand the dynamics of either global or European financial regulation Foundations of European Union Law Trevor|Tridimas Hartley (Takis),2025

Research Handbook on EU Institutional Law Adam Lazowski,Steven Blockmans,2016-09-30 Research Handbook on

EU Institutional Law offers a critical look into the European Union its legal foundations competences and institutions It provides an analysis of the EU legal system its application at the national level and the prevalent role of the Court of Justice Throughout the course of the Handbook the expert contributors discuss whether the European Union is well equipped for the 21st century and the numerous crises it has to handle They revisit the call for an EU reform made in the Laeken Conclusions in 2001 to verify if its objectives have been achieved by the Treaty of Lisbon and in daily practice of the EU institutions The book also delves into the concept of a Europe of different speeds which according to some is inevitable in the EU comprising 28 Member States Overall the assessment of the changes introduced by the Lisbon Treaty is positive even if there are plenty of suggestions for further reforms to re fit the EU for purpose , *Racism Postcolonialism Europe* Graham Huggan,Ian Law,2022-04-01 Racism Postcolonialism Europe turns the postcolonial critical gaze that had previously been most likely to train itself on regions other than Europe and sometimes those perceived to be most culturally or geographically distant from Europe back on Europe itself The book argues that racism is alive and dangerously well in Europe and examines this racism through the lens of postcolonial criticism Postcolonial racism can be a racism of reaction based on the perceived threat to traditional social and cultural identities or a racism of false respect based on mainstream liberals desire to hold at arm s length different cultures they are anxious not to offend Most of all postcolonial racism at least within the contemporary European context is a racism of surveillance whereby foreigners become aliens protection disguises preference and cultural difference slides into racial stigmatization all in the interests of representing the European people which is a very different entity to the European population as a whole Boasting a broad multidisciplinary approach and a range of distinguished contributors including Philomena Essed Michel Wieviorka and Griselda Pollock Racism Postcolonialism Europe will be required reading for scholars and students of race postcolonial studies sociology European history and literary and cultural studies
