treatment evaluation of the treatment's effectiveness and determining if changes in the treatment need to be made. Chapters are updated to reflect the latest standards of practice and the newest advances in technology. From lead author Dr. Albert Heuer, a well-known educator and clinician, this market-leading text also aligns content with National Board for Respiratory Care exam matrices to help you prepare for success on the NBRC's CRT and RRT credentialing exams. Comprehensive approach addresses all of the most important aspects and topics of assessment so you can learn to assess patients effectively. Case studies provide real-life clinical scenarios challenging you to interpret data and make accurate patient assessments. Questions to Ask boxes identify the questions practitioners should ask patients, e.g., coughing, sputum, shortness of breath, or questions to ask themselves, e.g., lung sounds they are hearing, blood pressure, respiratory rate when confronted with certain pathologies. Learning objectives, key terms, and chapter outlines begin each chapter and introduce the content to be mastered. Assessment questions in each chapter are aligned to the learning objectives and reflect the NBRC Exam format with answers located on the Evolve companion website. Key Points at the end of each chapter emphasize the topics identified in the learning objectives, providing easy review. Simply Stated boxes highlight and summarize key points to help you understand important concepts. NEW! Updated content throughout the text reflects the latest evidence-based practices and clinical developments, including infection control measures, imaging techniques, assessment of critically ill patients, and the increased reliance on telehealth and electronic health records. NEW! Updated and revised content aligns with the latest NBRC credentialing exam matrix. NEW! Take Home points are included for each chapter, plus cases as well as questions and answers for students to use in testing and applying their knowledge.
