parents to raise their children in the knowledge of God by filtering evolutionary teachings through the truth of Scripture and creation. As a teacher and a parent who has done extensive research on the evolution v creationism debate, Kelly is uniquely qualified to speak to parents and children on this subject. While teaching seventh grade in the public school system and studying for her master's of education, Landgraf realized that most American elementary students will never have access to truth about human origins and science unless their parents and churches teach them. In *No Bones About It*, Kelly makes an informed and effective argument for creation that will help children and parents take a stand for truth.
