Production, Properties, and Applications of High Temperature Coatings Pakseresht, Amir Hossein, 2018-01-12 Heat resistant layers are meant to withstand high temperatures while also protecting against all types of corrosion and oxidation. Therefore the micro structure and behavior of such layers is essential in understanding the functionality of these materials in order to make improvements. *Production Properties and Applications of High Temperature Coatings* is a critical academic publication which examines the methods of creation, characteristics and behavior of materials used in heat resistant layers. Featuring coverage on a wide range of topics such as thermal spray methods, sol gel coatings and surface nanoengineering, this book is geared toward students, academicians, engineers and researchers seeking relevant research on the methodology and materials for producing effective heat resistant layers.

Advances in Hydrochloric Acid Research and Application: 2012 Edition, 2012-12-26 *Advances in Hydrochloric Acid Research and Application 2012 Edition* is a ScholarlyBrief that delivers timely, authoritative, comprehensive and specialized information about Hydrochloric Acid in a concise format. The editors have built *Advances in Hydrochloric Acid Research and Application 2012 Edition* on the vast information databases of ScholarlyNews. You can expect the information about Hydrochloric Acid in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed and relevant. The content of *Advances in Hydrochloric Acid Research and Application 2012 Edition* has been produced by the world's leading scientists, engineers, analysts, research institutions and companies. All of the content is from peer-reviewed sources and all of it is written, assembled and edited by the editors at ScholarlyEditions and available exclusively from us. Drum, 2007 *Pretoria Student Law Review 2021-15* Phenyó Nomasonto Morweši Sekati, 2022-01-01 About the publication I am delighted to present to you the reader the fifteenth edition of the Pretoria Student Law Review (PSLR) with its Special Section on Social Justice and COVID 19. This year's Annual Edition together with the developments made during the year is a testament to the growth, resilience and adaptability of this student-driven initiative, especially during these turbulent times. This year has also been one of reflection and remembrance as we publish this edition in tribute to the late Professor Christof Heyns whose instrumentality in the establishment of the Pretoria University Law Press (PULP) has brought us to where we are today. Fourteen years since its inception and the PSLR still continues to grow and evolve whilst remaining true to its thriving legacy in fostering excellence and innovation through legal writing. This publication's uniqueness is also presented through its diverse contributions all addressing contemporary societal and legal issues under a broad range of legal disciplines. In an era of many continued firsts the PSLR has strived to build on the legacy of its predecessors by expanding on the Journal's visibility and accessibility. The PSLR's digital presence has now grown substantially leading to an increase in quality submissions from institutions across the country. This year the PSLR launched its first independent

website and developed an official logo for the Journal and its online platforms Authors are now able to submit their papers through the Open Journals System platform track their workflow manage their submissions and submit at any time outside of the PSLR's official call for submissions We can firmly submit that we have in pursuance of being a DHET accredited journal fulfilled the standards set out by the Department of Higher Education and Training Many thanks are extended to Makone Maja for developing the website Your patience guidance and geniality are truly appreciated Thank you also to Jakolien Strydom and ClickCreate for your charitable assistance in developing and designing the logo To the authors this year has in many respects been challenging with many of those challenges affecting students directly We appreciate the dedicated efforts put into your submissions and your wholehearted cooperation throughout the entire process Much appreciation is also extended to the reviewers who have selflessly committed to assisting the PSLR during the peer review process To all of the reviewers your input guidance and recommendations are greatly appreciated Pheny Nomasonto Morwesi Sekati Editor in Chief 2020

Green Biopolymers and their Nanocomposites Dhorali Gnanasekaran, 2019-07-06 This book comprises a collection of chapters on green biopolymer nanocomposites The book discusses the preparation properties and applications of different types of biodegradable polymers An overview of recent advances in the fabrication of biopolymers nanocomposites from a variety of sources including organic and inorganic nanomaterials is presented The book highlights the importance and impact of eco friendly green nanocomposites both environmentally and economically The contents of this book will prove useful for students researchers and professionals working in the field of nanocomposites and green technology
