Evolution 2.0 Perry Marshall,2015-09-01 In the ongoing debate about evolution science and faith face off But the truth is both sides are right and wrong In one corner Atheists like Richard Dawkins Daniel Dennett and Jerry Coyne They insist evolution happens by blind random accident Their devout adherence to Neo Darwinism omits the latest science glossing over crucial questions and fascinating details In the other corner Intelligent Design advocates like William Dembski Stephen Meyer and Michael Behe Many defy scientific consensus maintaining that evolution is a fraud and rejecting common ancestry outright There is a third way Evolution 2 0 proves that while evolution is not a hoax neither is it random nor accidental Changes are targeted adaptive and aware You ll discover How organisms re engineer their genetic destiny in real time Amazing systems living things use to re design themselves Every cell is armed with machinery for editing its own DNA The five amazing tools organisms use to alter their genetics 70 years of scientific discoveries of which the public has heard virtually nothing Perry Marshall approached evolution with skepticism for religious reasons As an engineer he rejected the concept of organisms randomly evolving But an epiphany that DNA is code much like data in our digital age sparked a 10 year journey of in depth research into more than 70 years of under reported evolutionary science This led to a new understanding of evolution an evolution 2 0 that not only furthers technology and medicine but fuels our sense of wonder at life itself This book will open your eyes and transform your thinking about evolution and God You ll gain a deeper appreciation for our place in the universe You ll see the world around you as you ve never seen it before Evolution 2 0 pinpoints the central mystery of biology offering a multimillion dollar technology prize at naturalcode.org to the first person who can solve it Corporate Social Irresponsibility Paula Alexander,2015-02-11 Corporate Social Irresponsibility focuses on ethical failures in order to relate corporate responsibility to business ethics corporate governance and organization

effectiveness The book advocates a strategic approach to CSR ethical management cannot and should not be divorced from effective management Corporate social responsibility has transitioned from oxymoron into a defining challenge of the twenty first century Taking the recent financial crisis as a starting point Alexander examines the underlying ethical and legal crises these events expose in the business world The problems that have come to light go beyond issues of firm financial performance into the integrity of the manufacturing and marketing processes and relations with consumers As such the book presents a model that resolves the apparent conflict between maximizing shareholder value and meeting the interests of other firm stakeholders Alexander presents a balanced view contrasting her model with alternative approaches The book also covers the impact of globalization on management the ethics of outsourcing the limits of regulation as well as poverty alleviation and social entrepreneurship Blending a comprehensive theoretical framework with a broad range of cases this book covers the latest major changes in US legislation as well as recent corporate scandals making it a valuable accompaniment to any course in CSR business ethics or business government and society Popular Science ,1995
