Focus On: 100 Most Popular American Romantic Drama Films Wikipedia contributors, *Class and Politics in Malaysian and Singaporean Nation Building* Muhamad M. N. Nadzri, 2025-05-23 Nadzri explores a range of factors that have influenced nation building in Malaysia and Singapore with principal emphasis on the importance of social and economic class. In contrast to previous studies on nation building which overwhelmingly rely on the explanatory power of culture, race and ethnic community, the book foregrounds the importance of social and economic status. The three main themes explored in this book are how the nation building projected in each country is driven by the class interests of its ruling elites, how elections have impacted the politics of nation building, and how each country's nation building policies are designed to build political loyalty and support for the ruling elites. The comparability of analytical outcomes using the prism of class interests uncovers the limitations of the explanatory power of race, ethnic community and culture in understanding the social and political dynamics of the two countries. A valuable read for scholars and students of politics in Malaysia and Singapore that will also be of interest to scholars of comparative approaches to nation building.

Bill Hartack Bill Christine, 2016-11-09 Bill Hartack won the Kentucky Derby five times and seemed to hate every moment. If only Bill could have gotten along with people the way he got along with horses, a trainer said. His impoverished upbringing didn't help; his mother was killed in an automobile accident, the family home burned down, his father was murdered by a girlfriend, and he was estranged from his sisters for most of his life. Larry King, his friend, said it was just as well Hartack never married because it wouldn't have lasted. Hartack was one of racing's most accomplished jockeys. But he was an inveterate grouch and gave the press a hard time. At 26 he was inducted into the Hall of Fame. Whenever the media tried to bury him, he would win another Derby. At the end of his life he was found alone in a cabin in the Texas hinterlands. Drawn from dozens of interviews and conversations with family members, friends, and enemies, this book provides a full account of Hartack's turbulent life.

Restructuring Capitalism Rogene Buchholz, 2017-04-21 The main theme of this book is that within contemporary capitalist societies, a materialist outlook informed by science has triumphed, creating the lack of a spiritual dimension to give meaning and purpose to the activities that are necessary for a capitalist society to function effectively. Capitalist societies are in trouble and need to be restructured to provide for the material needs of all the people who work within the system, not just the one percent, but because of the lack of a spiritual connection with each other and with nature, this is not likely to happen. It has been said that society and the organizations within treat one another as objects to be manipulated in the interests of promoting economic growth and treat nature as an object to be exploited for the same purpose. This way of treating each other and nature is consistent with the way a capitalist system has worked in the past and was supposed to enable it to function efficiently to provide a fulfilling and enriched life for all its adherents through growth of the economy. However, as capitalist societies have become dysfunctional, they will need a different kind of orientation to continue in existence.

Restructuring Capitalism

Materialism and Spiritualism in Business argues that what is needed is a new sense of a spiritualization of the self and its relation to others and to the establishment of a spiritual connection with nature in order for capitalism to be restructured to work for everyone and for the society as a whole

Billionaire Democracy George Tyler, 2018-01-30 This isn't your America No matter who the president is We're told that when we vote when we elect representatives we're gaining a voice in government and the policies it implements But if that's true why don't American politics actually translate our preferences into higher living standards for the majority of us The answer is that in America the wealthy few have built a system that works in their favor while maintaining the illusion of democracy The reality is that the quality of democracy in the United States is lower than in any other rich democracy on a par with nations such as Brazil or Turkey In the US voters have little influence on eventual policy outcomes engineered by lawmakers Political scientists call it the income bias and attribute it to the power of wealthy donors who favor wage suppression and cuts to important government programs such as public education and consumer protection It causes American lawmakers to compete to satisfy preferences of donors from the top one percent instead of the middle class It's also why our economy has been misfiring for most Americans for a generation wages stagnating and opportunity dwindling The election of Donald Trump shocked the world but for many Americans it came as a stark reflection of mounting frustrations with our current system and anger at the status quo We need to find a way to fix the way our government serves us The only realistic pathway to improve middle class economics is for Congress and the Supreme Court to raise the quality of American democracy In *Billionaire Democracy: The Hijacking of the American Political System* economist George R Tyler lays out the fundamental problems plaguing our democracy He explains how the American democratic system is rigged and how it has eroded the middle class providing an unflinching and honest comparison of the US government to peer democracies abroad He also breaks down where we fall short and how other rich democracies avoid the income bias created by the overwhelming role of money in US politics Finally Tyler outlines practical campaign finance reforms we can adopt when we finally focus on improving the political responsiveness of our government It's time for the people of this nation to demand a government that properly serves us the American people

[The Uninformed Voter](#) Robert Levine, 2020-04-30 Voters often lack knowledge of government structure political issues and candidates positions and frequently elect incompetent or venal politicians to office Partisanship corruption and inefficiency follow Ideas for strengthening democracy are discussed along with recommendations by various political scientists and philosophers
