2020 Drug Pipeline Report:

The Role of Digital Health Technologies in Drug Development National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Roundtable on Genomics and Precision Health, Forum on Drug Discovery, Development, and Translation, 2020-11-28 On March 24 2020 a 1 day public workshop titled The Role of Digital Health Technologies in Drug Development was convened by the National Academies of Sciences Engineering and Medicine This workshop builds on prior efforts to explore how virtual clinical trials facilitated by digital health technologies DHTs might change the landscape of drug development To explore the challenges and opportunities in using DHTs for improving the probability of success in drug R D enabling better patient care and improving precision medicine the workshop featured presentations and panel discussions on the integration of DHTs across all phases of drug development Throughout the workshop participants considered how DHTs could be applied to achieve the greatest impact and perhaps even change the face of how clinical trials are conducted in ways that are also ethical equitable safe and effective This publication summarizes the presentations and discussions from the workshop

Contemporary Accounts in Drug Discovery and Development Xianhai Huang, Robert G. Aslanian, Wayne H. Tang, 2022-03-29 CONTEMPORARY ACCOUNTS IN DRUG DISCOVERY AND DEVELOPMENT A useful guide for medicinal chemists and pharmaceutical scientists Drug discovery is a lengthy and complex process that typically involves identifying an unmet medical need determining a biological target chemical library screening to identify a lead chemical optimization preclinical studies and clinical trials This process often takes many years to complete and relies on practitioners knowledge of chemistry and biology but also and perhaps more importantly on experience Improving the success rate in discovery and development through a thorough knowledge of drug discovery principles and advances in technology is critical for advancement in the field Contemporary Accounts in Drug Discovery and Development provides drug discovery scientists with the knowledge they need to quickly gain mastery of the drug discovery process A thorough accounting is given for each drug covered within the book as the authors provide pharmacology drug metabolism biology drug development and clinical studies for every case with modern drug discovery principles and technologies incorporated throughout Contemporary Accounts in Drug Discovery and Development readers will also find Case histories used as an engaging way of learning about the drug discovery development process Detailed biological rational and background information drug design principles SAR development ADMET considerations and clinical studies The full history of individual marketed small molecule drugs Coverage of drug candidates that have passed Phase I clinical trials with different modalities such as antibody drug conjugates ADC proteolysis targeting chimera PROTAC and peptide drugs The application of new technologies in drug discovery such as DNA encoded libraries DEL positron emission tomography PET and physics based computational modeling employing free energy perturbation FEP Contemporary Accounts in Drug Discovery and Development is a helpful tool for medicinal chemists

organic chemists pharmacologists and other scientists in drug research and process development It may be considered essential reading for graduate courses in drug discovery medicinal chemistry drug synthesis pharmaceutical science and pharmacology It is also a useful resource for pharmaceutical industry labs as well as for libraries Trichomonas vaginalis Prashant Khare,Ashish Jain,2025-01-21 *Trichomonas Vaginalis Pathogenesis Diagnosis and Treatment* provides up to date knowledge about Trichomoniasis the most prevalent and neglected non viral sexually transmitted infection that can result in compromised reproductive health The book discusses Trichomonas vaginalis its epidemiology pathogenesis of disease the mechanisms involved in the host immune response clinical manifestations and impact on reproductive health The book also describes the new insights and challenges involved in the identification of promising drug targets and examines the current diagnostic tools and therapies against Trichomonas vaginalis infection *Trichomonas Vaginalis Pathogenesis Diagnosis and Treatment* provides comprehensive coverage of this neglected protozoan parasite and the sexually transmitted infection it causes and is a valuable resource to researchers and scientists who are working on male and female reproductive disorders caused by Trichomonas vaginalis Offers in depth knowledge about Trichomonas vaginalis infection and its impact on reproductive health Examines novel approaches to understand the diagnosis prevention and treatment of Trichomonas vaginalis infection Explores recent advancements and strategies for the development of prophylactic and therapeutic measures **Alzheimer's Disease Drug Development** Jeffrey Cummings,Jefferson Kinney,Howard Fillit,2022-03-31 *Alzheimer's Disease AD* is a growing global public health challenge The development of new therapies is urgently needed and a complex ecosystem of organizations has grown to facilitate AD drug discovery and development Masterfully collating information on the drug development ecosystem this book emphasizes the contributions of each aspect in the pipeline with a uniform approach to chapters enabling readers to access relevant information quickly Topics covered include the use of non clinical laboratory studies biomarker development artificial intelligence design and management of clinical trials and funding and financing models Also discussed is the critical role of advocacy fundraising for drug development With the approval of aducanumab the function of the ecosystem has become apparent This is a definitive overview of how the ecosystem works in transferring an AD drug from its discovery in the laboratory through clinical trial testing to regulatory review and eventual marketing *Modeling, Control and Drug Development for COVID-19 Outbreak Prevention* Ahmad Taher Azar,Aboul Ella Hassanien,2021-11-01 This book is well structured book which consists of 31 full chapters The book chapters deal with the recent research problems in the areas of modeling control and drug development and it presents various techniques of COVID 19 outbreak prevention modeling The book also concentrates on computational simulations that may help speed up the development of drugs to counter the novel coronavirus responsible for COVID 19 This is an open access book Drug Repurposing David Cavalla,2022-02-09 Drug repurposing is the development of existing drugs for new uses given that 9 in 10 drugs that enter drug development are never marketed and therefore represent wasted effort it is an attractive as well as

inherently more efficient process Three repurposed drugs can be brought to market for the same cost as one new chemical entity and they can also be identified more quickly an important benefit for patients whose diseases are progressing faster than therapeutic innovation But repurposing also requires a fresh look at configuring pharmaceutical R a holistic gedanken experiment almost needs to be undertaken at the very start of any repurposing development In addition to new ways of thinking the discovery of repurposing opportunities can take advantage of artificial intelligence techniques to match the perfect new use for an existing drug And while repurposing of medicines has been in the mind of every doctor since Hypocrates modern clinical practice will simply have to adapt to new repurposing techniques in an age where the number of known diseases is increasing much faster than the healthcare dollars available *Ansel's Pharmaceutical Dosage Forms and Drug Delivery Systems* Loyd V. Allen, Jr., Timothy B. McPherson, 2021-11-15 The most trusted source on the subject available today Ansel's Pharmaceutical Dosage Forms and Drug Delivery Systems 12th Edition equips pharmacy students with everything they need to master the intricacies of pharmaceutical dosage form design and production and achieve successful outcomes in their courses and beyond Reflecting the latest CAPE APhA and NAPLEX competencies this trusted extensively updated resource clarifies the interrelationships between pharmaceutical and biopharmaceutical principles product design formulation manufacture compounding and the clinical application of the various dosage forms in patient care as well as regulations and standards governing the manufacturing and compounding of pharmaceuticals New and revised content throughout keeps students up to date with current approaches to key coverage areas and additional case studies demonstrate concepts in action to reinforce understanding and prepare students for the clinical challenges ahead

Cobert's Manual Of Drug Safety And Pharmacovigilance (Fourth Edition) Barton Cobert, William Gregory, Jean-loup Thomas, Catherine Baldrige, 2024-12-27 Cobert's Manual of Drug Safety and Pharmacovigilance Fourth Edition is an updated how to manual of guiding principles and concepts for those working in the fields of drug safety clinical research pharmacology regulatory affairs risk management quality compliance and in government and legal professions This comprehensive and practical guide discusses the theory and the practicalities of drug safety and pharmacovigilance and provides essential information on drug safety and regulations in the United States European Union and more including recognizing monitoring reporting and cataloging serious adverse drug reactions Cobert's Manual of Drug Safety and Pharmacovigilance Fourth Edition teaches the daily practice of drug safety in industry hospitals the FDA and other health agencies both in the United States and around the world and provides critical information about what to do when confronted with a drug safety problem **Side Effects of Drugs Annual** Sidhartha D. Ray, 2022-11-26 Side Effects of Drugs Annual A Worldwide Yearly Survey of New Data in Adverse Drug Reactions Volume 44 first published in 1977 presents clinicians and medical investigators with a critical survey of new data and trends in adverse drug reactions and interactions Topics covered in this new release include Thyroid hormones Iodine and Iodides and Antithyroid Drugs Side Effects of Antidepressant

Medications Side Effects of Lithium Side Effects of Opioid Analgesics and Narcotic Antagonists Side Effects of Beta lactams and Tetracyclines Side effects of Anti diabetic Drugs Vaccines Side Effects of Neuromuscular Blockings Agents and Skeletal Muscle Relaxants and much more Other chapters cover General Anesthetics and Therapeutic Gases Drugs that Act on the Respiratory Tract Positive Inotropic Drugs and Drugs Used in Dysrhythmias Metals and Metal Antagonists Antiseptic Drugs and Disinfectants with special scrutiny of COVID 19 pandemic related side effects Drugs in tuberculosis and leprosy Anthelmintic drugs Blood and blood treatments and a variety of other topics Provides a critical yearly survey of the new data and trends regarding the side effects of drugs Authored and reviewed by worldwide pioneers in the clinical and practice sciences Presents an essential clinical guide on the side effects of drugs for practitioners and healthcare professionals alike

Small Molecules and Peptide-Based Candidates as Therapeutics and Vaccines for COVID-19 Pandemic Da'san Mahmoud Mousa Jaradat, Munir Al-Zeer, Balakumar Chandrasekaran, Saeid Abu-Romman, 2021-11-16 Topic Editor Dr Balakumar Chandrasekaran holds patents relating to N substituted isatin hydrazones as antimycobacterial and antimicrobial agents and Pharmaceutical Compounds Topic Editor Dr Munir Al Zeer holds a patent relating to Method for the Preparation of an Influenza Virus All other Topic Editors declare no competing interests Addressing Sickle Cell Disease National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on Addressing Sickle Cell Disease: A Strategic Plan and Blueprint for Action, 2021-01-22 Sickle cell disease SCD is a genetic condition that affects approximately 100 000 people in the United States and millions more globally Individuals with SCD endure the psychological and physiological toll of repetitive pain as well as side effects from the pain treatments they undergo Some adults with SCD report reluctance to use health care services unless as a last resort due to the racism and discrimination they face in the health care system Additionally many aspects of SCD are inadequately studied understood and addressed Addressing Sickle Cell Disease examines the epidemiology health outcomes genetic implications and societal factors associated with SCD and sickle cell trait SCT This report explores the current guidelines and best practices for the care of patients with SCD and recommends priorities for programs policies and research It also discusses limitations and opportunities for developing national SCD patient registries and surveillance systems barriers in the healthcare sector associated with SCD and SCT and the role of patient advocacy and community engagement groups

Managing the Drug Discovery Process Susan Miller, Walter Moos, Barbara Munk, Stephen Munk, Charles Hart, David Spellmeyer, 2023-03-09 Managing the Drug Discovery Process Second Edition thoroughly examines the current state of pharmaceutical research and development by providing experienced perspectives on biomedical research drug hunting and innovation including the requisite educational paths that enable students to chart a career path in this field The book also considers the interplay of stakeholders consumers and drug firms with respect to a myriad of factors Since drug research can be a high risk high payoff industry it is important to students and researchers to understand how to effectively and

strategically manage both their careers and the drug discovery process This new edition takes a closer look at the challenges and opportunities for new medicines and examines not only the current research milieu that will deliver novel therapies but also how the latest discoveries can be deployed to ensure a robust healthcare and pharmacoeconomic future All chapters have been revised and expanded with new discussions on remarkable advances including CRISPR and the latest gene therapies RNA based technologies being deployed as vaccines as well as therapeutics checkpoint inhibitors and CAR T approaches that cure cancer diagnostics and medical devices entrepreneurship and AI Written in an engaging manner and including memorable insights this book is aimed at anyone interested in helping to save countless more lives through science A valuable and compelling resource this is a must read for all students educators practitioners and researchers at large indeed anyone who touches this critical sphere of global impact in and around academia and the biotechnology pharmaceutical industry Considers drug discovery in multiple R D venues big pharma large biotech start up ventures academia and nonprofit research institutes with a clear description of the degrees and training that will prepare students well for a career in this arena Analyzes the organization of pharmaceutical R D taking into account human resources considerations like recruitment and configuration management of discovery and development processes and the coordination of internal research within and beyond the organization including outsourced work Presents a consistent well connected and logical dialogue that readers will find both comprehensive and approachable Addresses new areas such as CRISPR gene editing technologies and RNA based drugs and vaccines personalized medicine and ethical and moral issues AI machine learning and other in silico approaches as well as completely updating all chapters

Pharmacology of Infectious Diseases: World Tuberculosis Day 2022 Johannes Alffenaar, Sebastian G. Wicha, Shashikant Srivastava, 2023-10-16 World Tuberculosis TB Day takes place on 24th March and is designed to build awareness about the global epidemic of TB as well as the efforts and advances in eliminating the disease TB is one of the leading causes of death from infectious diseases The 24th March commemorates that day when Dr Robert Koch announced that a small group of scientists at the University of Berlin s Institute had discovered the cause of tuberculosis the TB bacillus in 1882 This marked a turning point in the story of virulent human infectious diseases It is in this spirit that Frontiers is launching this Research Topic to coincide with this United Nations UN day This occasion not only offers an opportunity to acknowledge and build awareness of the diseases but also to consider the importance of research in pharmacology and advances in treatment strategies

Law and Economic Development Kaushik Basu, Ajit Mishra, 2023-04-06 This book is a major stocktaking of law and economics in the context of developing and emerging economies and in the light of the dramatic changes in the global economy that we have witnessed in recent years The rise of artificial intelligence digital technology and mega platforms that collect data and facilitate trade is changing the landscape of economics Rapid globalization has created new challenges for law and regulation since increasingly contentious cases arise which span multiple countries and several legal jurisdictions All these changes are

giving rise to new problems in developing countries where many people lead precarious lives anyway healthcare is minimal and corruption widespread Alongside these global developments the discipline of law and economics is also undergoing profound changes making us re think some of the founding assumptions of the subject Healthcare in the United States: Clinical, Financial, and Operational Dimensions, Second Edition Stephen L. Walston, Kenneth L. Johnson, 2024-05-21 Healthcare in the United States offers a comprehensive examination of the US healthcare system and its development addressing various challenges related to cost access and quality Using straightforward descriptions sidebars case studies and vignettes the text illuminates the complex system s organizations financing and delivery models This second edition contains updated data throughout and explores the effect of the COVID 19 pandemic on many facets of the healthcare system including long term care population health and health information technology It also includes the following new material New chapters on public health organizations services and challenges the interplay between healthcare laws and ethics and healthcare funding and financial management of healthcare organizations Expanded discussions of post acute care mental health parity and health disparities Healthcare in the United States provides future healthcare administrators and clinicians with a thorough understanding of the multifaceted US healthcare system as well as the conflicting assumptions and expectations that underpin the delivery of healthcare OECD Health Policy Studies Ready for the Next Crisis? Investing in Health System Resilience OECD, 2023-02-23 The COVID 19 pandemic had massive consequences for societies and health systems across the OECD and beyond Health systems were not resilient enough Resilient health systems plan and are ready for shocks such as pandemics economic crises or the effects of climate change **Preventive audiology** Katijah Khoza-Shangase, 2023-03-01 This book is an original scholarly book that introduces the concept of preventive audiology with a specific focus on the African context which is in line with the South African re engineered primary healthcare strategy as well as the World Health Organisation s approach The book reflects on contextually relevant and responsive evidence based perspectives grounded in an African context on preventive audiology in four major ear and hearing burdens of disease within the South African context 1 early hearing detection and intervention 2 middle ear pathologies 3 ototoxicity and 4 noise induced hearing loss The book represents innovative research seen from both a South African and global perspective It offers new discourse and argues for a paradigm shift in how audiology is theorised and performed particularly in low and middle income country contexts The goal of this book is to motivate a paradigm shift in how the ear and hearing care is approached within this low and middle income country context while arguing for Afrocentric best practice evidence that leads to next practice Drug Repurposing for Emerging Infectious Diseases and Cancer Ranbir Chander Sobti, Sunil K. Lal, Ramesh K. Goyal, 2023-02-07 This book presents drug repurposing strategies to combat infectious diseases and cancer It discusses key experimental and in silico approaches for modern drug repositioning including signature matching molecular docking genome wide associated studies and network based approaches aided by artificial intelligence Further the book presents

various computational and experimental strategies for better understanding disease mechanisms and identify repurposed drug candidates for personalized pharmacotherapy It also explores the databases for drug repositioning summarizes the approaches taken for drug repositioning and highlights and compares their characteristics and challenges Towards the end the book discusses challenges and limitations encountered in computational drug repositioning *Real-World Evidence in Drug Development and Evaluation* Harry Yang,Binbing Yu,2021-01-11 Real world evidence RWE has been at the forefront of pharmaceutical innovations It plays an important role in transforming drug development from a process aimed at meeting regulatory expectations to an operating model that leverages data from disparate sources to aid business regulatory and healthcare decision making Despite its many benefits there is no single book systematically covering the latest development in the field Written specifically for pharmaceutical practitioners *Real World Evidence in Drug Development and Evaluation* presents a wide range of RWE applications throughout the lifecycle of drug product development With contributions from experienced researchers in the pharmaceutical industry the book discusses at length RWE opportunities challenges and solutions Features Provides the first book and a single source of information on RWE in drug development Covers a broad array of topics on outcomes and value based RWE assessments Demonstrates proper Bayesian application and causal inference for real world data RWD Presents real world use cases to illustrate the use of advanced analytics and statistical methods to generate insights Offers a balanced discussion of practical RWE issues at hand and technical solutions suitable for practitioners with limited data science expertise **Essentials of Translational Pediatric Drug Development** Elke Gasthuys,Karel Allegaert,Lien Dossche,Mark Turner,2024-07-23 *Essentials of Translational Pediatric Drug Development From Past Needs to Future Opportunities* provides integrated and up to date insights relevant for both translational researchers and clinicians active in the field of pediatric drug development The book covers all key aspects from different stakeholder perspectives providing a literature overview and careful reflection on state of the art approaches It will be an ideal guide for researchers in the field who are designing and performing high quality innovative pediatric adapted drug development by helping them define needs challenges and possible solutions that advance and harmonize pediatric drug development Despite the broad consensus that children merit the same quality of drug treatment as any other age group children remain frequently neglected during drug research and development Even with the adoption of multiple legislations addressing this problem the lack of efficacy and safety data of marketed as well as newly developed drugs still remain in the pediatric population Covers both theoretical and practical aspects of translational pediatric drug development Approaches the topic from different stakeholder perspectives academics industry regulators clinicians and patient parent advocacy groups Offers best practices and future perspectives for the improvement of translational pediatric drug development
