- Context of State Building
  - New ideas of a sovereign state created varying degrees of centralization. Monarchs also wanted more power but were opposed by nobles who were against centralized government. Challenges caused by absolutism led to the discovery of alternative political systems.
- Eng. Civil War and Glorious Revolution
  - Dispute over the power of the monarchy when the aristocracy wanted representation in parliament after it was dissolved by the king.
- Dutch Golden Age
  - Created by the protestant revolt against the Habsburgs, the Dutch Republic experienced a period of prosperity. This is due to various things, one of which being how citizens were given individual rights, in addition religious toleration was a thing so Jews primarily could move there and make the Dutch wealthy through Jewish trade.
- Balance of Power
  - After Peace of Westphalia (30 Yrs. War,) religion was not the primary cause for war... balance of power between European states was a major factor in conflicts between states. Poland's inability to control the nobility led to its partition. Ottomans defeat by the Austrians stopped their westward expansion. With new forms of weaponry becoming a necessity for warfare, the richer states became more powerful so higher taxes, prices ect were imposed. People also began a hatred of Louis XIV bc of his continuous wars pursuance of dynastic and state interests.
- Absolutists Approaches to Power
  - Absolute monarchs took political power away from the nobility but allowed them to keep their legal privileges. Louis XIV
