Information Quality and Management Accounting Stephan Leitner, 2013-01-24 One of the main aims of management accounting is to provide managers with accurate information in order to provide a good basis for decision making There is evidence that the information provided by management accounting systems MAS is distorted and the occurrence of biases in accounting information is widely accepted among users of MAS At the same time the intensity and the frequency of use of MAS increase too Consequently the quality of the provided information is critical The focus of this simulation study is twofold On the one hand the impact of the sophistication of traditional costing systems on error propagation in the case of a set of input biases is investigated On the

other hand the impact of single and multiple input biases on the quality of the information provided by traditional costing systems is focused In order to investigate the research questions a simulation approach is applied

Handbook of Management Accounting Research Christopher S. Chapman,Anthony G. Hopwood,Michael D. Shields,2011-09-14 Volume two of the Handbooks of Management Accounting Research consists of two groups of chapters The first draw together research that has focussed on particular management accounting practices The second set synthesise contributions to the literature that have been focussed within particular organisational contexts Volume two concludes with a review of research on how management accounting practice and research varies around the world Special pricing available if purchased as a set with Volume 1 Documents the scholarly management accounting literature Publishing both in print and online through Science Direct International in scope

Sustainability in Accounting Education Maria Cadiz Dyball,Ian Thomson,Richard M.S. Wilson,2015-10-14 Accounting sustainably involves accounting for and to the natural environment and accounting for and to society including groups currently oppressed or disadvantaged by unsustainable processes and practices This book creates a compelling case for the inclusion of sustainability at the heart of accounting educational programmes offering critical lessons and identifying risks to avoid when designing accounting programmes and courses Accounting sustainability has moved from the side lines of policy discourses accounting institutions professional accounting practices and research activities into the mainstream The chapters in this proposed book engage in a critical dialogue to facilitate change in accounting education for sustainability They dispel the myth that accounting for sustainability is an oxymoron bad for business unrelated to practice or contrary to professional accounting bodies accreditation requirements This book was originally published as a special issue of Accounting Education

Evolution of Corporate Financial Reporting (RLE Accounting) T. Lee,Robert Parker,2014-02-05 This book explores certain contemporary problems of accounting through the eyes and pens of historians Many accounting problems are not new ones and it is therefore important to understand their history and development through the ages This book places twentieth century studies in context and provides clues to possible solutions The focus of this book is on companies and their financial reports and will be of use to students of economic and business history who wish to provide themselves with an accounting background in relation to the financial reports of companies they may be studying

A History of Management Accounting Trevor Boyns,J. R. Edwards,2013 There is growing interest in the history of accounting amongst both accounting practitioners and accounting academics This interest developed steadily from about 1970 and really took off in the 1990s However there is a lack of texts dealing with major aspects of accounting history that can be used in classrooms to inform new researchers and to provide a source of reference for established researchers The great deal of research into cost and management accounting in Britain published in academic journals over the last twenty years including the authors own contributions makes The History of Cost and Management Accounting an essential contribution to the field

Measurement and Management Control Marc J. Epstein,Jean-Francois Manzoni,Antonio Davila,2010-04-01 In 2001 we gathered a group of researchers in Nice France to focus discussion on performance measurement and management control Following the success of that conference we held subsequent conferences in 2003 2005 2007 and 2009 This title contains some of the exemplary papers that were presented at the most recent conference *Management of an Inter-firm Network* Yasuhiro Monden,2012 This book focuses especially on financial and or managerial accounting aspects of inter firm network in three phases 1 strategy for forming the inter firm network 2 management control of inter firm network and 3 task control

of production sales and logistics of inter firm network Introduction to Management Accounting, Chap. 1-14 Charles T. Horngren, Gary L. Sundem, William O. Stratton, 2005 Make the right decisions with Horngren Sundem Stratton Horngren Sundem Stratton's best selling texts emphasize decision making throughout each chapter Decision making is introduced in the early text chapters and also appears in many of the text features Making Managerial Decisions boxes critical thinking exercises and more As always students develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions not just inventory valuation Two text versions enable faculty to select a text that only covers management accounting concepts Chs 1-14 or one that includes three chapters of financial accounting review Chs 1-17 New OneKey provides the convenience of having all text resources in a single location and available in your choice of course management platform BlackBoard WebCT and CourseCompass OneKey also includes PH Grade Assist on line homework with automatic grading and infinite practice for students **Cost Accounting in Government** Zachary Mohr, 2017-04-21 Managerial cost accounting is the financial and managerial tool that is used to estimate the organizational cost of products and services in business and government In recent decades cost accounting in the United States and other advanced industrial countries has been dominated by discussions of Activity Based Costing or ABC While ABC can be shown to produce a more accurate estimate of cost than older and more basic types of cost accounting ABC is not used extensively in many governments We argue that this recent focus on ABC has stifled examination and discussion of how government cost accounting is being used and how it could be used in practice The study of cost accounting practice reveals an important and underexplored area of financial management in government Given the scandals that cost accounting estimates can create and that different types of cost accounting can create different estimates of cost it may be reasonable to ask whether the cost accounting exercise is worth it Cost Accounting in Government Theory and Applications addresses these unusual and unusually important topics through a series of studies of different government cost accounting practices The first section of the book presents two chapters on the history and basic elements of cost accounting The second section of the book provides further discussion and case studies of actual cost accounting practices in the main areas that cost accounting has been used in government benchmarking the performance of government services rate setting grant overhead cost recovery and cost management The last two chapters discuss cost accounting practices in Europe and the future of cost accounting These cases span local and federal governments and provide a much needed context to the study of cost accounting in government Aimed at academics researchers and policy makers in the fields of Accounting Public Administration and Government Studies Cost Accounting in Government Theory and Applications seeks to address the practical and theoretical gap in government cost accounting research with case studies of different public agencies that are using cost accounting for different purposes The case studies illustrate that different purposes for cost accounting create unique and interesting cost accounting practices The case studies provide useful examples of actual cost accounting systems that can inform both research and instruction

The History of Accounting (RLE Accounting) Michael Chatfield, Richard Vangermeersch, 2014-02-05 Global in scope accounting has had its share of great thinkers and practitioners from Luca Pacioli the father of accounting to R J Chambers W W Cooper Yuji Ijiri Stephen A Zeff and other figures This encyclopedia presents more than 400 entries that focus on such subjects as publications in the field institutional bodies accounting and economic concepts accounting issues authors in accounting records leaders in the profession accounting in various countries financial court cases accounting exams and historical researchers The Accounting Educators' Journal ,1997
