Accounting Grade 11 September 2013:

Credit Rating Governance Ahmed Naciri, 2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market. In the recent financial crisis their power and reliability were often questioned yet a simple rating downgrade could threaten to bankrupt a whole country. This book examines the governance of credit rating agencies as expressed by their ability to fairly, ethically and consistently assign higher rates to issuers having lesser default risks. However factors such as the drive for increased revenue and market share, the inadequate business model, the inadequate methodology of assessing risk, opacity and inadequate internal monitoring have all been identified as critical governance failures for credit agencies. This book explores these issues and proposes some potential solutions and improvements. This will be of interest to researchers and advanced students of corporate finance, financial economics, risk management, investment management and banking.

Bad Therapy Abigail Shrier, 2024-02-27 From the author of *Irreversible Damage* an investigation into how mental health overdiagnosis is harming not helping children. A pacy no holds barred attack on mental health professionals and parenting experts thought provoking. Financial Times. A message that parents, teachers, mental health professionals and policymakers need to hear. New Statesman. In virtually every way that can be measured Gen Z's mental health is worse than that of previous generations. Youth suicide rates are climbing antidepressant prescriptions for children are common and the proliferation of mental health diagnoses has not helped the staggering number of kids who are lonely, lost, sad and fearful of growing up. What's gone wrong? In *Bad Therapy* bestselling investigative journalist Abigail Shrier argues that the problem isn't the kids it's the mental health experts. Drawing on hundreds of interviews with child psychologists, parents, teachers and young people themselves Shrier explores the ways the mental health industry has transformed the way we teach, treat, discipline and even talk to our kids. She reveals that most of the therapeutic approaches have serious side effects and few proven benefits for instance talk therapy can induce rumination trapping children in cycles of anxiety and depression while gentle parenting can encourage emotional turbulence even violence in children as they lash out desperate for an adult to be in charge. Mental health care can be lifesaving when properly applied to children with severe needs but for the typical child the cure can be worse than the disease. *Bad Therapy* is a must read for anyone questioning why our efforts to support our kids have backfired and what it will take for parents to lead a turnaround.
