

ACCOUNTING BOOKKEEPING BUSINESS PLAN

gotempl.cc

1.0 Executive Summary

The Sorcerer's Accountant is a small, successful, one-person accounting and tax preparation service owned and run by Max Greenwood, CPA in Chicago, Illinois. The firm offers tax accounting, management accounting, and QuickBooks set-up and training for small business clients. To move beyond a one person model, the business will expand its services to include bookkeeping services for small businesses. This will require an investment in marketing and staff to grow the business to include this complementary line of business. This business plan organizes the strategy and tactics for the business expansion and set objectives for growth over the next three years.

The business will offer clients bookkeeping services with the oversight of a CPA at a price they can afford. To do this involves hiring undergraduate student bookkeepers and providing them with ongoing training. Costs as low as possible, and continuing to define the expertise of Sorcerer's Accounting through its website resources. The effect will be sales more than doubling over three years as 8 part-time bookkeepers are deployed to client businesses as needed, and salary and dividends to Greenwood increase substantially.
