ACCOUNTANCY DYNAMIC STUDY GUIDE (AHSEC) KUMAR NIRMAL PRASAD,2021-09-08 THIS IS A COMPREHENSIVE GUIDE ON ACCOUNTANCY WHICH COVERS ALL THE TOPICS AS PER THE NEW SYLLABUS OF AHSEC THIS GUIDE INCLUDES ALL THE QUESTIONS ASKED FROM 1999 TO 2019 EXAM AND ALSO INCLUDE ALL THE QUESTIONS GIVEN IN COUNCIL QUESTION BANK

Business Research Pieter W. Buys,Merwe Oberholzer,2023-03-14 This book focuses on research methodologies that apply to business research particularly for researchers and managers embarking thereon to support managerial decision making in the industry In doing so the book s objective is to guide business researchers in identifying defining and applying rigorous academic methodologies that will enable them to formulate design and execute effective research that answers their specific management problems Such guidance can empower organizational managers to understand that business research can contribute to practical solutions to actual problems experienced in the industry In addition by emphasizing the integrative nature between 1 academic research and 2 experienced industry problems it becomes possible to foster an awareness of such research s potential impact on organizational performance management sustainability and resilience With that attention is given to narrowing the gap between theory and practice which requires that fundamentals of scientific research be adhered to while maintaining the delicate balance between a practice friendly guide to pragmatically sound and academically rigorous business research

Hybrid Learning and Continuing Education Simon K.S. Cheung,Joseph Fong,Wilfred Fong,Fu Lee Wang,Lam-For Kwok,2013-08-13 This book constitutes the refereed proceedings of the 6th International Conference on Hybrid Learning ICHL 2013 held in Toronto ON Canada in August 2013 The 35 papers presented in this volume were carefully reviewed and selected from numerous submissions The selected articles broadly cover topics on hybrid learning and continuing education including computer supported collaborative learning experiences in hybrid learning pedagogical and psychological issues e learning and mobile learning open education resources and open online courses and issues in hybrid learning and continuing education

South African Schooling: The Enigma of Inequality Nic Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South

African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI
