Conform Glenn Beck, 2014-05-06 Glenn Beck the New York Times bestselling author of *The Great Reset* considers the hot button issue of education in the US exposing the weaknesses of the Common Core school curriculum and examining why liberal solutions fail Public education is never mentioned in the constitution Why Because our founders knew that it was an issue for state and local governments not the federal one It s not a coincidence that the more the federal government has inserted itself into public education over the years the worse our kids have fared Washington dangles millions of dollars in front of states and then tells them what they have to do to get it It s backdoor nationalization of education and it s leading us to ruin In *Conform* Glenn Beck presents a well reasoned fact based analysis that proves it s not more money our schools need it s a complete refocusing of their priorities and a total restructuring of their relationship with the federal government In the process he dismantles many of the common myths and talking points that are often heard by those who want to protect the status quo Critics of the current system are just teacher bashers Teachers unions put kids first Homeschooled kids suffer both academically and socially local control is an excuse to protect mediocrity Common Core is rigorous and state led Critics of Common Core are just conspiracy theorists Elementary school teachers need tenure We can t reform schools until we eradicate poverty school choice takes money away from public schools Charter schools perform poorly relative to public schools There is no issue more important to America s future than education The fact that we ve yielded control over it to powerful unions and ideologically driven elitists is inexcusable We are failing ourselves our children and our country *Conform* gives parents the facts they need to take back the debate and help usher in a new era of education built around the commonsense principles of choice freedom and accountability

Budgeting for Local Governments and Communities Douglas Morgan, Kent S. Robinson, Dennis Strachota, James A. Hough, 2017-09-19 Budgeting for Local Governments and Communities is designed as the primary textbook for a quarter or semester long course in public budgeting and finance in an MPA programme Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting a lack of a theoretical governance framework an omission of important topics and typically a lack of exercises and datasets for student use Budgeting for Local Governments and Communities solves all of these problems The book is exceptionally comprehensive and well written and represents the efforts of veteran authors with both teaching and real world experience Key Features Special Focus on Local Government Budgeting focuses exclusively on budgeting at the local levels of American government which are responsible for spending 40 percent of the taxes collected from citizens Integration of Theory and Practice teaching cases and chapters capture the lessons learned by professional practitioners who have extensive experience in making local public budgeting work on the ground Polity Approach to Local Budgeting presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole Budgeting is presented as governance work rather than as a unique set of skills possessed by analysts and financial specialists Legal Historical Economic and Moral Foundations of Local Government Budgeting provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values legal principles and historical development of the larger American federal state and local political systems Electronic Datasets and Budgeting Exercises the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to learn through doing Extensive Glossary and Bibliography covers terms on the history and practice of local public budgeting

Too-Big-to-Fail in Banking Tom Filip Lesche, 2021-06-28 This book provides a comprehensive summary of the latest academic research on the important topic of too big to fail TBTF in banking It explains TBTF from various perspectives including the range of regulatory measures proposed to counter TBTF most notably the globally accepted regulation of global systemically important banks G SIBs and its main tool of capital surcharges The empirical analysis quantifies the shareholder value of the G SIB attribution by using quarterly observations from more than 750 global banks between Q2 2008 and Q3 2015 The main finding is that G SIBs are confronted with a substantial relative valuation discount compared to non G SIBs From the end of 2011 until the end of 2015 a stable discount of 0.6x 0.8x price to tangible common equity P TCE is statistically highly

significant The results suggest that the G SIB designation effect which positively impacts G SIBs share prices because of funding benefits from IGGs is dominated by the regulatory G SIB burden effect which negatively impacts G SIBs share prices because of lower profitability due to capital surcharges and other regulatory requirements placed on G SIBs The findings re open the debate about whether breaking up G SIBs would unlock shareholder value and whether G SIBs are regulated efficiently

PISA 2018 Results (Volume I) What Students Know and Can Do OECD,2019-12-03 This is one of six volumes that present the results of the PISA 2018 survey the seventh round of the triennial assessment Volume I What Students Know and Can Do provides a detailed examination of student performance in reading mathematics and science and describes how performance has changed since previous PISA assessments

Local Authority Accounting Methods Hugh Coombs,J. Edwards,2014-02-05 The book contains a collection of papers dealing with a range of controversial accounting issues which exercised the minds of local authority officials during the period 1909 1934 and the solutions embodied in the Accounts Boroughs and Metropolitan Boroughs Regulations 1930 The contributors to the debate were mainly local government officials and the items reproduced cover a wide range of matters such as the content of the abstract accounts the need for standardization and an illuminating comparison of the nature and contents of municipal accounts with those of limited companies A number of issues which received close attention from the literature during the early part of the present century were related to the growth of municipal trading undertakings water gas tramways and electricity The pricing of these services was a matter of considerable debate questions included whether these services should be priced to generate a profit break even or receive a subsidy from the rates The depreciation question and the related issues of loan periods and the need for a sinking fund receive some attention as do the growing concern of municipal debt

Lived Economies of Default Joe Deville,2015-02-11 Consumer credit borrowing using credit cards store cards and personal loans is an important and routine part of many of our lives But what happens when these everyday forms of borrowing go bad when people start to default on their loans and when they cannot or will not repay It is this poorly understood controversial but central part of both the consumer credit industry and the lived experiences of an increasing number of people that this book explores Drawing on research from the interior of the debt collections industry as well as debtors own accounts and historical research into technologies of lending and collection it examines precisely how this ever more sophisticated globally connected market functions It focuses on the highly intimate techniques used to try and recoup defaulting debts from borrowers as well as on the collection industry s relationship with lenders Joe Deville follows a journey of default from debtors borrowing practices to the intrusion of collections technologies into their homes and everyday lives to the collections organisation to attempts by debtors to seek outside help In the process he shows how to understand this particular market we need to understand the central role played within it by emotion and affect By opening up for scrutiny an area of the economy which is often hidden from view this book makes a major

contribution both to understanding the relationship between emotion and calculation in markets and the role of consumer credit in our societies and economies This book will be of interest to students teachers and researchers in a range of fields including sociology anthropology cultural studies economics and social psychology

Contemporary Topics in Finance Iris Claus,Leo Krippner,2019-04-29 The literature surveys presented in this edited volume provide readers with up to date reviews on eleven contemporary topics in finance Topics include unconventional monetary policy implicit bank guarantees and financial fraud all linked to the exceptional event of the Global Financial Crisis Explores how recent studies on inflation risk premia and finance and productivity have benefitted from new empirical methods and the availability of relevant data Demonstrates how angel investing venture capital relationship lending and microfinance have benefitted from increased research as they have become more seasoned Investigates crowdfunding and crypto currencies which have both arisen from

recent technological developments **Trouble at the Bar** Clifford Winston, David Burk, Jia Yan, 2021-03-02 Deregulating the legal profession will benefit society by improving access to legal services and the efficacy of public policies Lawyers dominate a judicial system that has come under fire for limiting access to its services to primarily the most affluent members of society Lawyers also have a pervasive influence throughout other parts of government This is the first book offering a critical comprehensive overview of the legal profession s role in failing to serve the majority of the public and in contributing to the formation of inefficient public policies that reduce public welfare In *Trouble at the Bar* the authors use an economic approach to provide empirical support for legal reformers who are concerned about their own profession The authors highlight the adverse effects of the legal profession s self regulation which raises the cost of legal education decreases the supply of lawyers and limits the public s access to justice to the point where in general only certified lawyers can execute even simple contracts At the same time barriers to entry that limit competition create a closed environment that inhibits valid approaches to analyzing and solving legal problems that are at the heart of effective public policy Deregulating the legal profession the authors argue would allow more people to provide a variety of legal services without jeopardizing their quality reduce the cost of those services spur competition and innovation in the private sector and increase the quality of lawyers who pursue careers in the public sector Legal practitioners would enjoy more fulfilling careers and society in general and its most vulnerable members in particular would benefit greatly **The Mining Journal, Railway and Commercial Gazette** ,1891
