*Atlas of the Ancient Near East* Trevor Bryce, Jessie Birkett-Rees, 2016-04-20 This atlas provides students and scholars with a broad range of information on the development of the Ancient Near East from prehistoric times through the beginning of written records in the Near East c 3000 BC to the late Roman Empire and the rise of Islam The geographical coverage of the Atlas extends from the Aegean coast of Anatolia in the west through Iran and Afghanistan to the east and from the Black and Caspian Seas in the north to Arabia and the Persian Gulf and Indian Ocean in the south The Atlas of the Ancient Near East includes a wide ranging overview of the civilizations and kingdoms discussed written in a lively and engaging style which considers not only political and military issues but also introduces the reader to social and cultural topics such as trade religion how people were educated and entertained and much more With a comprehensive series of detailed maps supported by the authors commentary and illustrations of major sites and key artifacts this title is an invaluable resource for students who wish to understand the fascinating cultures of the Ancient Near East

**Ancient Perspectives** Richard J. A. Talbert, 2014-02-14 *Ancient Perspectives* encompasses a vast arc of space and time Western Asia to North Africa and Europe from the third millennium BCE to the fifth century CE to explore mapmaking and worldviews in the ancient civilizations of Mesopotamia Egypt Greece and Rome In each society maps served as critical economic political and personal tools but there was little consistency in how and why they were made Much like today maps in antiquity meant very different things to different people *Ancient Perspectives* presents an ambitious fresh overview of cartography and its uses The seven chapters range from broad based analyses of mapping in Mesopotamia and Egypt to a close focus on Ptolemy's ideas for drawing a world map based on the theories of his Greek predecessors at Alexandria The remarkable accuracy of Mesopotamian city plans is revealed as is the creation of maps by Romans to support the proud claim that their emperor's rule was global in its reach By probing the instruments and techniques of both Greek and Roman surveyors one chapter seeks to uncover how their extraordinary planning of roads aqueducts and tunnels was achieved Even though none of these civilizations devised the means to measure time or distance with precision they still conceptualized their surroundings natural and man made near and far and felt the urge to record them by inventive means that this absorbing volume reinterprets and compares

**Historic map of the ancient Near and Middle East. Historische Karte des alten und mittleren Orients** Wilhelm Berg, 1979 *The Antique Map of History* Pasquale De Marco, 2025-07-23 *The Antique Map of History* is a comprehensive guide to the history of cartography from the earliest maps drawn on cave walls to the sophisticated digital maps we use today This book explores the different types of maps that have been created over the centuries the techniques that have been used to make them and the ways that maps have been used to shape our world *The Antique Map of History* is divided into ten chapters each of which focuses on a different aspect of cartography The first chapter provides an overview of the history of cartography from the earliest maps to the present day The second chapter discusses the different types of maps that have

been created over the centuries including world maps regional maps and thematic maps The third chapter examines the techniques that have been used to make maps from the early days of hand drawn maps to the present day of computer generated maps The fourth chapter explores the ways that maps have been used to shape our world Maps have been used to navigate the world to plan military campaigns to explore new lands and to track the spread of diseases Maps have also been used to make political statements to promote economic development and to educate people about the world around them The fifth chapter discusses the art and science of cartography Mapmaking is a unique blend of art and science and it requires a deep understanding of both the physical world and the human experience Cartographers must be able to accurately represent the world on a two dimensional surface while also taking into account the needs of the people who will be using the map The sixth chapter explores the history of antique maps Antique maps are maps that were created before the 19th century These maps are often highly decorative and can provide a valuable glimpse into the past The seventh chapter discusses the use of antique maps in history Antique maps can be used to study the history of cartography to learn about the history of different regions of the world and to track the spread of diseases The eighth chapter explores the future of antique maps Antique maps are becoming increasingly popular as collectors items This chapter discusses the factors that are driving the demand for antique maps and the ways that antique maps are being used today The Antique Map of History is a valuable resource for anyone who is interested in the history of cartography This book is also a beautiful object that can be enjoyed by anyone who appreciates the art of mapmaking If you like this book write a review *Historic Map of Ancient Near and Middle East* Wilhelm Berg,1977 [Understanding the Historical Books of the Old Testament](#) Vincent P.
