

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

description of auxiliary selection concerns the regularity of auxiliary selection from a typological perspective Thus studies of auxiliary selection have both stressed the fact that certain recurrent parameters are highly relevant to the description of auxiliary selection whereas other studies demonstrate significant differences in auxiliary selection systems By integrating the synchronic and diachronic levels of linguistic description the papers in the present volume work towards a framework that explains these contradictory findings They discuss the role of semantic and syntactic constraints in gradient auxiliary selection address the question of paradigmaticity of the have be alternation and shed light on the mechanisms of the gradual historical change from be to have selection The volume thus puts forth a row of innovative theoretical and empirical findings from a wide range of typologically diverse European languages that substantially broaden our knowledge about the

mechanisms of auxiliary selection systems
