

A decorative border surrounds the central text. It features several stylized angels with large, colorful wings (red, green, blue, yellow) and white faces. They are depicted in various poses, some sitting and some standing, on ornate, swirling white clouds against a blue background. The central area has a solid olive-green background.

Sensational Religion Sally M. Promey,2014-06-24 The result of a collaborative multiyear project this groundbreaking book explores the interpretive worlds that inform religious practice and derive from sensory phenomena Under the rubric of making sense the studies assembled here ask How have people used and valued sensory data How have they shaped their material and immaterial worlds to encourage or discourage certain kinds or patterns of sensory experience How have they framed the sensual capacities of images and objects to license a range of behaviors including iconoclasm censorship and accusations of blasphemy or sacrilege Exposing the dematerialization of religion embedded in secularization theory editor Sally Promey proposes a fundamental reorientation in understanding the personal social political and cultural work accomplished in religion s sensory and material practice Sensational Religion refocuses scholarly attention on the robust material entanglements often discounted by modernity s metaphysic and on their inextricable connections to human bodies behaviors affects and beliefs *The Written World of God* Dunja Rasic,2021-12-07 The Written World of God is the first systematic overview of the science of letters ilm al huruf according to the great Andalusian spiritual master scholar poet and philosopher Ibn Arabi d 1240 Ibn Arabi defined the science of letters as familiarity with the building blocks of the Quranic

revelation and everything in the world of nature Letters are understood as visual and aural signs pointing to the mysteries of existence The present study examines how the universe came to be for what purpose it was created and the hierarchical structure it is endowed with It is an old story told anew through the 28 letters of the Arabic alphabet their orthographic forms and the meanings attributed to them using Ibn Arabi s own diagrams Although the story could be told through geometric figures or numbers letters were chosen on the basis of Ibn Arabi s doctrine that the meanings carried by the letters fully encompasses the whole of existence God and the universe
