Interpreting Sapiens' Consciousness through Paleolithic Cave Art Gary J. Maier,2023-08-08 This book is the first to identify an interpretive path through Paleolithic cave art that can provide plausible meaning to the animal figures in the Lascaux cave in France The artwork was created during a period described as the Creative Explosion spanning from 35 000 to 11 000 BC The author has found that the artists or shamans have left clear evidence of aspects of their worldview and by using ethological evidence such as a bison shedding its winter coat to identify spring as the season portrayed in a specific panel he adds a level of certainty to his interpretations In sum this book argues that the cave art describes the journey of the soul from the spirit world to the natural world and back and that it identifies a spectrum of
